Part Cross-References

Contracts, Title 28, ch. 2 and 3.

19-3-201. Contracts with political subdivisions. (1) Any municipal corporation, county, or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of said contracting employer, subject to the provisions of this chapter. The contract may include any provisions which are consistent with this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract shall be subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract shall not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at such election shall include the summary of the retirement system as set forth in the resolution. The election shall be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract shall be by ordinance adopted by the affirmative vote of two-thirds of the members of the legislative body, not less than 20 days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting thereon.

(b) The contract shall specify that all employees of the contracting employer or such groups of employees as agreed to between the board and the contracting employer shall become members. The groups of employees to be included shall be by departments, duties, age, or other similar classifications and not by individual employees. The board shall have the right to disapprove any classification into groups if, in its opinion, said classification affects adversely the interest of the retirement system. Membership in the retirement system shall be compulsory for all employees included under the contract.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

(3) The termination of the contract shall be subject to the following provisions, in addition to the other provisions of this chapter:

(b) All employees covered under the retirement system shall receive notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, not less than 20 days after the approval of the resolution by the employees, may adopt by a 2/3 majority a resolution terminating PERS coverage effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for any excess accrued liabilities not previously funded by the terminating agency.

Any employee who has continuously been, for a period of at least 2 years, an employee of a municipal corporation, county, or other public agency of this state which is not a contracting employer may advise the legislative body of his employer, in writing, that he wishes to participate in the retirement system. Within 30 days after receipt of such written request, the legislative body shall thereupon adopt the resolution of intention and take such action as provided for in 19-3-201.

History: En. 68-1702 by Sec. 15, Ch. 323, L. 1973; R.C.M. 1947, 68-1702.

19-3-203. Conversion of local or state retirement plan. (1) Should the legislative body of any city, county, or public agency having an existing retirement, pension, or annuity fund or system, hereafter referred to as the local system, desire to make the members of the local system members of the public employees' retirement system, it may enter into a contract for that purpose with the board in the manner provided in 19-3-201. However, the employees voting as provided in 19-3-201(2)(a) shall be limited to active members of the local system, and approval shall require an affirmative vote of two-thirds of such employees.

(2) All active members of the local system shall become members of the retirement system and shall no longer be members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract shall be continued and paid at their existing rates by the public employees' retirement system. The liability for such pensions shall be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system shall be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of said securities shall be determined by the board.

(3) The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion, if any, of the funds of the system that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Such shares shall be charged to the employer and credited to the respective individual accounts of such members in the public employees' retirement system and administered as if said contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section will be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section shall be payable by the contracting employer, with interest, on a monthly basis as specified in the contract.

The rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied by the contracting employer.

19-3-403. Exclusions. The following persons may not become members of the retirement system:

(1) elective officers who have not filed with the board written requests to become members, except that a person so excluded from membership may later become a member by otherwise becoming an employee or by written request after a subsequent election to office, and if he affirmatively exercises the option, the contributions of the employer because of his membership shall be the same as they would have been had he not been so excluded;

(2) inmates of state institutions who are allowed compensation for such service as they are able to perform;

(3) persons in state institutions principally for the purpose of training, but who receive compensation;

(4) independent contractors, unless there is a written contract which specifies the creation of an employer-employee relationship for purposes of retirement coverage under The Public Employees' Retirement System Act;

(5) employees serving in employment which does not exceed the equivalent of 120 working days in any fiscal year who have not filed with the board a written request to become members. A member so excluded from membership by this subsection may later become a member by otherwise becoming an employee or by written request after the initial date of exclusion. If he affirmatively exercises the option and pays the employee contribution plus interest, the contributions of the employer, because of his membership, shall be the same as they would have been had he not been so excluded plus accrued interest on all employer contributions from the date the contributions would have been made to the date of payment.

(6) employees in service on July 1, 1945, or prior thereto who filed with the board elections not to become members, except that a person so excluded from membership may become a member and be eligible thereafter to receive the same benefits that he would have received if he had never filed an election not to be a member by meeting the requirements prescribed in 19-3-505 and 19-3-506;

(7) persons directly appointed by the governor who do not file with the board an election in writing to become members;

(8) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government, or political subdivision thereof and who are receiving credit in the other system for service, it being the purpose of this subsection to prevent a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, except when the service qualifies, is applied for, and purchased pursuant to 19-3-503. A member of the retirement system who, because of his employment by the state, is required to become a member of any other system described in this subsection shall be considered, solely for the purposes of making normal contributions, as permanently separated from service. Exclusion under this subsection is subject to the following exceptions:

(a) When an employer has entered into a collective bargaining agreement which includes provisions for payments or contributions by the employer in lieu of wages to a retirement or pension plan qualified by the internal revenue service for its employees, the employees remain eligible, if otherwise qualified, for membership in the retirement system, and the payments or contributions in lieu of wages may not be considered a part of the employees' compensation for purposes of computing the employer or employee contributions to the retirement system.

(b) For the purpose of this subsection (8), persons receiving pensions, retirement allowances, or other payments from any source on account of employment other than as an employee as defined in this chapter are not considered, because of such receipt, members of any other retirement or pension system.

(9) court commissioners or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(10) persons who become employees after they have reached their 60th birthday and have no creditable service in this system and who do not file with the board an election to become members;

(11) employees of county hospitals or county rest homes in the sixth- and seventh-class counties, unless they elect to file with the board an election in writing to become members;

(12) persons employed for 6 months or less by the legislature or the legislative council to perform work related to the legislative session who do not file with the board an election in writing to become members;

(13) full-time students employed at and attending the same public elementary school, high school, vocational-technical center, or community college or any unit of the state university system, except that a person so excluded from membership as a student of a public community college or a unit of the state university system who later becomes a member by otherwise becoming an employee may affirmatively exercise the option of qualifying the service excluded by this subsection by applying to the board in writing after becoming a member and become eligible to receive credit for the excluded service under the provisions of 19-3-505;

(14) the chief administrative officer of any city or county where the chief administrative officer has filed an election in writing with the board to be excluded from membership, this election to be filed no later than July 1, 1979, or 30 days after initial employment by a county or city, whichever is later.

(b) To qualify this service he must contribute to the retirement fund the amount determined by the board to be due based on his compensation and normal contribution rate as of his 11th year and as many succeeding years as are required to qualify this service, with interest from the date he becomes eligible for this benefit to the date he contributes. He may not qualify more of this service than he has state service in excess of 10 years.

(2) If a member has retired from active duty in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the period of armed conflict, December 7, 1941, to August 15, 1945, with a normal service retirement benefit, he may not qualify his military service under subsection (1) of this section. However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) of this section if his active duty in the armed forces of the United States, including the first special service force or the American merchant marine in oceangoing service during the armed conflict, December 7, 1941, to August 15, 1945, is not more than 25% of the total sum of all years of military service including reserve and active duty time.

19-3-504. Absence due to illness or injury. (1) Time, not to exceed 5 years, during which a member is absent from service by reason of injury or illness determined within 1 year after the end of such absence as arising out of and in the course of his employment shall be considered as spent in service for the purpose of qualification for service retirement benefits under Title 19, chapter 3, part 9, or survivorship allowances under Title 19, chapter 3, part 12, but not for the calculation of such benefits unless the member complies with subsections (2) through (4) of this section, in which case the absence shall be considered as time spent in service for both the calculation and qualification of benefits.

(2) (a) Any member absent because of an employment-related injury which entitles him to workers' compensation payments may contribute to the retirement system, upon his return to service, an amount equal to the contributions which would have been made by him to the system on the basis of his compensation at the commencement of his absence plus interest accruing from 1 year from the date after he returns to covered employment to the date he contributes for his period of absence.

(b) Whenever a member elects to contribute under subsection (2)(a), the employer shall contribute an amount equal to what its employer contributions would have been had the member not been absent from service. In addition, the employer may contribute an amount equal to the interest accruing on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (2)(a). If the employer elects not to pay the interest costs, this amount must be paid by the employee.

(3) At some time after returning to covered employment, a member must file with the board a written notice of his intent to pay the contributions under subsection (2).

(4) Payment of the employee's contributions which are due because of the period of absence may be made in one sum at the time of filing the notice or on an installment basis before termination of covered employment.

(5) A member so absent loses his right to contribute under this section if all of his accumulated normal contributions are refunded pursuant to 19-3-703.

19-3-505. Qualification of service with employer. (1) Subject to the provisions of this section, any person who has service with an employer which is not creditable service may convert all or a portion of such service to membership service by filing written notice thereof with the board.

(2) (a) The person must pay to the retirement system the sum of the amount which he and his employer would have contributed during the period of service so converted if the employer had then been an employer and the interest which would have accumulated thereon to the time of such payment; provided that the employer may pay the employer's portion including accrued interest.

(b) The employer must establish a policy as to the retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination will be subject to the determination of the board. All successful appeals will obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing such appeal with the board. Each appeal will be heard on its individual merits and will not bind the employer to pay all retroactive payments for all former and present employees.

(3) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board will determine the eligibility of all service credit requests as prescribed in 19-3-304.

(4) Payment may be made in one sum at the time of filing notice or on an installment basis before termination of covered employment. Failure to make regular monthly payments in any month where the member receives his normal compensation shall thereafter forfeit such person's right to make any further installment payments, unless permission is granted to do so by the board.

19-3-510. Service in the United States government. (1) A member who is assigned to an agency of the United States government under Title IV, the Intergovernmental Personnel Act of 1970, may qualify such federal service as creditable service in the public employees' retirement system under subsection (2) of this section, provided that:

(a) the member has accrued 5 years or more of service in the public employees' retirement system; and

(b) the member returns to full-time employment with the prior state or local government employer for at least 1 year after completing service in the United States government.

(2) A member of the public employees' retirement system who is assigned to an agency of the United States government has the option to:

(a) continue his payments into the account; or

(b) qualify this service under 19-3-505 within 2 years after his return to active status as a state or local government employee.

(3) Salary earned while on assignment to an agency of the United States government must be considered compensation for the purposes of the public employees' retirement system and may be included in the determination of final compensation as defined in 19-3-104, provided that the final compensation cannot exceed 100% of the member's highest annual compensation earned as a state or local government employee.

History: En. Sec. 1, Ch. 261, L. 1981.

19-3-511. Transfer of service credits from teachers' retirement system. (1) A member may at any time before his retirement make a written election with the board to qualify in the public employees' retirement system all of his creditable service in the teachers' retirement system. The amount that must be paid to the retirement system to qualify this service under this section is the sum of subsections (2) and (3).

(2) The teachers' retirement system shall transfer to the public employees' retirement system an amount equal to 72% of the amount determined in accordance with subsection (3).

(3) The employee shall pay an amount equal to his accumulated contributions at the time he terminated active membership, as defined in 19-4-302, plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the teachers' retirement system.

(4) The amount of creditable service granted in subsection (1) must be on a month-by-month basis. Military service credit transferred from the teachers' retirement system must be included in the 5-year maximum military service credit provided for in 19-3-503.

(5) Subject to the provisions of 19-3-304, the board is the sole authority in determining the amount of creditable service qualified under this section and the amount paid to the retirement system under subsections (2) and (3).

(6) If a member who has creditable service in the teachers' retirement system dies before he qualifies this service in the public employees' retirement system and if the service credits from both systems, when combined, entitle his beneficiary to a death benefit, the payment of the death benefit is the liability of the public employees' retirement system. Before payment of the death benefit, the teachers' retirement board must transfer to the public employees' retirement system the contributions necessary to qualify this service in the public employees' retirement system as provided in subsections (2) and (3).

History: En. Sec. 1, Ch. 290, L. 1983; amd. Sec. 1, Ch. 690, L. 1989; amd. Sec. 1, Ch. 64, L. 1991.

Compiler's Comments

1991 Amendment: Near beginning of (2), after "equal to", substituted "72% of the amount determined in accordance with subsection (3)" for "5% of the average final compensation, as defined in 19-4-101, earned by the member multiplied by the total years of creditable service being transferred plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the teachers' retirement system. If the member had less than 3 full years of membership service, the average final compensation must be based on the compensation reported to the teachers' retirement board by the employer"; and deleted former (3)(b) and (3)(c) that read: "(b) If the sum of the rates provided in 19-3-701 and 19-3-801 exceeded the sum of the rates provided in 19-4-602 and 19-4-605 at the time the employee terminated active membership, as defined in 19-4-302, the employee shall pay an amount in addition to that required in subsection (3)(a) to receive full credit for the service transferred. This additional amount is equal to:

(i) the final compensation as determined in subsection (2) multiplied by the total years of creditable service being transferred multiplied by the difference between the sum of the rates provided for in 19-3-701 and 19-3-801 and the sum of the rates provided in 19-4-602 and 19-4-605; plus

(ii) accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the retirement system.

(c) If the member chooses not to make the contribution provided for in this section, he shall receive credit for the service transferred based on the ratio between the retirement systems' employee and employer contribution rates provided for in 19-3-701, 19-3-801, 19-4-602, and 19-4-605". Amendment effective February 27, 1991.

Retroactive Applicability: Section 3, Ch. 64, L. 1991, provided: "[This act] applies retroactively, within the meaning of 1-2-109, to service credits transferred between the public employees' retirement system and the teachers' retirement system on and after October 1, 1989."

19-3-512. Qualification of service from other public retirement systems. (1) A member with 5 or more years of creditable service in the public employees' retirement system may qualify:

(a) public service employment covered under a public retirement system other than a system provided for in Title 19 for which he received a refund of his membership contribution; and

(b) public service employment that occurred before the public employer adopted a public retirement system.

(2) A member may not qualify more than 5 years of service under this section. To qualify this service, a member shall:

(a) at any time before his retirement make a written election with the board to qualify the service; and

(b) contribute to the retirement fund the actuarial cost of granting the service in the public employees' retirement system, as determined by the board, based on:

(i) his compensation in his sixth year of service covered under the public employees' retirement system; and

(ii) the normal contribution rate according to the most recent actuarial valuation.

(3) Contributions to qualify service under this section may be made in a lump-sum payment or in installments as agreed upon by the member and the board.

(4) Service qualified under this section may not be:

(a) credited in any other retirement system under Title 19; or

(b) used to qualify a member to purchase military service under 19-3-503.

(5) Service qualified under this section may not be used in calculating a member's retirement allowance unless his last 5 years of creditable service were earned under the public employees' retirement system. If a member's qualified service may not be used in calculating his retirement allowance, he may choose to:

(a) receive a refund of the contributions made to qualify the service; or

(b) apply the contributions made to qualify the service under the provisions of 19-3-702.

History: En. Sec. 1, Ch. 11, L. 1987; amd. Sec. 1, Ch. 196, L. 1989.

19-3-513. Election to purchase additional service. (1) At any time before retirement, a person who became a member of the retirement system before July 1, 1989, and who has 5 years or more of membership service may make a written election with the board to purchase additional service for the purpose of calculating his retirement allowance. Except as provided in subsection (3), the member may purchase 1 year of additional service for each 5 years of membership service that he has qualified under the retirement system, up to a maximum of 5 years of additional service.

(2) For each year of service purchased under this section, a member shall contribute to the retirement fund an amount equal to his normal compensa-

tion for the 12-month period immediately preceding the date he elects to purchase the service multiplied by the combined employee and employer contribution rates contained in 19-3-701 and 19-3-801 in effect on and after July 1, 1993. Contributions may be made in a lump-sum payment or in installments as agreed upon by the member and the board.

(3) (a) Except as provided in subsection (3)(b), after January 1, 1990, a member may elect to qualify a combined total of 5 years of service under 19-3-503, 19-3-512, or this section.

(b) A member who has purchased service under 19-3-503 or 19-3-512 on or before January 1, 1990, and who elects to purchase service under this section shall receive credit for the full months of service purchased on or before January 1, 1990.

(4) Service purchased under this section may not be used to qualify a member for service retirement.

History: En. Sec. 1, Ch. 73, L. 1989; amd. Sec. 17, Ch. 16, L. 1991.

Compiler's Comments

1991 Amendment: At end of first sentence of (2) substituted "contained in 19-3-701 and 19-3-801 in effect on and after July 1, 1993" for "on the date he elects to purchase the service".

19-3-801. Employer contribution rates — actuarial determination. (1) Each employer shall contribute to the cost of benefits under the system. The amount of the employer contributions shall be computed by applying to member's compensation the sum of the current service contribution rate and the unfunded liability contribution rate. The sum of these rates is 6.417% from July 1, 1983, to June 30, 1992. The sum of the rates increases to 6.55% on July 1, 1992, and to 6.70% on July 1, 1993.

(2) The actuary shall determine the current service contribution rate to be that level percentage of the present value of the future compensation of the average new member entering the system which equals the then present value of the excess of all prospective benefits in respect of such member over the member's own normal contributions.

(3) The actuary shall determine the minimum unfunded liability contribution rate to be that level percentage of the present value of the prospective compensation of all members for the 40-year period following the date of the determination which is equal to the unfunded liability on that date. The unfunded liability at any time is the excess of the present value of all future benefits payable in respect of all persons then entitled to benefits under the system over the sum of the retirement fund and the present values of the future current service contributions and normal contributions payable in respect of all such persons.

19-3-1101. Optional retirement allowance. (1) The retirement allowance of a member who so elects shall be converted, in lieu of all other benefits under this chapter, into an optional retirement allowance which is the actuarial equivalent of the regular retirement allowance. The optional retirement allowance is a reduced amount payable during the member's lifetime with a subsequent benefit as follows:

(a) option 2—a continuation of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(b) option 3—a continuation of one-half of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(c) option 4—such other actuarially equivalent benefit as may be approved by the board.

(2) Election of an optional retirement allowance must be by written application filed prior to the first payment of the regular retirement allowance.

(3) If either the member or his contingent annuitant dies before the member has received the first payment under option 2 or 3, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date his election or changed election of an optional retirement allowance is received by the board, then the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written request to the board, a retired member who is receiving an optional retirement allowance may designate a different contingent annuitant, select a different option, or convert his optional retirement allowance to a regular retirement allowance if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the request, the board shall actuarially adjust the member's monthly retirement allowance to reflect the change.

19-3-1102. Medical examination of disability retiree — cancellation and reinstatement. (1) The board may, in its discretion, require the recipient of a disability retirement allowance to undergo a medical examination. The examination must be made by a physician or surgeon appointed by the board, at the place of residence of the recipient or another place mutually agreed upon. Upon the basis of the examination, the board shall determine whether the recipient is unable, by reason of physical or mental incapacity, to perform either the duties of the position held by him when he retired or the duties proposed to be assigned to him. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to medical examination, his retirement allowance must be canceled.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose disability retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification with duties within his capacity if he had been an employee of the state or of the university. If he had been an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the retirement allowance has been canceled and that the former employee is eligible for reinstatement to duty. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) If a recipient whose disability retirement allowance is canceled is not reemployed in a position subject to the retirement system, his service is considered, for the purposes of 19-3-703, to have been discontinued coincident with the commencement of his retirement allowance.

(1) (a) Should the recipient of a retirement allowance because of disability engage in a gainful occupation during any month other than as an employee as defined in 19-3-104, the amount of his retirement allowance for that month shall be reduced to an amount which, when added to the compensation earned by him in that occupation, shall not exceed the amount of his monthly compensation at the time of his retirement.

(b) For the purpose of calculating a reduction under subsection (1)(a), the board, at the request of a recipient of a disability retirement allowance, may adjust the recipient's monthly compensation at the time of retirement by an inflationary factor if he has been receiving a disability retirement allowance for more than 36 consecutive months.

(2) At the request of a recipient of a disability retirement allowance who is age 60 or older, the board may grant service retirement status to the recipient without recalculating his monthly allowance.

The retirement allowance for any retiree exceeding this 600-hour limitation in any calendar year after retirement will be reduced $1 for each $1 earned after working 600 hours in that calendar year.

(2) A retiree 65 years of age or older who returns to employment covered by the retirement system is either subject to the 600-hour limitation of subsection (1) or may earn an amount equal to 50% of his current annual retirement benefits, whichever limitation provides the greater compensation to the retiree, in any calendar year. Upon reaching the applicable limitation, the retiree's benefits must be reduced $1 for each $1 in other income earned in that calendar year.

(3) A retiree returning to employment covered by the retirement system shall report to the board the number of hours he has worked and the gross compensation paid to him in that employment during any month after retirement.

(2) The board shall calculate the amount of the postretirement allowance payable to an eligible member or beneficiary by:

(a) dividing the amount available under 19-3-1110(3) for payment of the postretirement allowance by the total accumulated years of service for all eligible members and beneficiaries;

(b) multiplying the quotient obtained in subsection (2)(a) by the member's total years of service;

(c) dividing the product obtained in subsection (2)(b) by a factor for calculating a monthly annuity from actuarial tables adopted by the board; and

(d) applying the provisions contained in subsections (3) and (4).

(3) If a member had elected to receive an optional retirement allowance, the amount of his postretirement allowance must be adjusted by the appropriate optional factor.

19-4-101. Definitions. As used in this chapter, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Accumulated contributions" means the sum of all the amounts deducted from the compensation of a member or paid by a member and credited to his individual account in the annuity savings fund, together with interest. Regular interest shall be computed and allowed to provide a benefit at the time of retirement.

(2) "Actuarial equivalent" means a benefit of equal value when computed, with regular interest, on the basis of the 1971 Group Annuity Mortality Table, with ages set back 4 years and an interest rate of 8% compounded annually.

(3) "Annuity" means the payments made to a beneficiary for life which are derived from a member's accumulated contributions.

(4) "Annuity reserve" means the present value of all payments to be made on account of a member's annuity computed, with regular interest, on the basis of the mortality tables adopted by the retirement board.

(5) (a) "Average final compensation" means the average of the earned compensation of a member during the 3 consecutive years of full-time service which yield the highest average and on which contributions have been made as required by 19-4-602.

(b) In determining a member's retirement allowance under 19 4-802 or 19-4-804, the amount of each year's earned compensation that may be used in the calculation of average final compensation may not exceed the member's earned compensation from the preceding year by more than 10%, except as provided by rule by the retirement board.

(c) Earned compensation in excess of the amount specified in subsection (5)(b) is considered termination pay as provided in subsection (5)(d).

(d) If the earned compensation includes any termination pay, the member shall select one of the following options:

(i) use the total termination pay in the calculation of the average final compensation. The member and the employer shall pay contributions to the retirement system as are determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time the termination pay is received.

(ii) use a yearly amount of termination pay added to each of the 3 consecutive years' salary used in the calculation of the average final compensation, if the member has 4 or more years of service with the employer from which the termination pay was received. The amount of compensation used in the calculation of average final compensation must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer must pay contributions on the termination pay according to the rates provided for in 19-4-602(1) and 19-4-605(1).

(iii) exclude the termination pay from the average final compensation. No contribution is required of either the employer or member, and contributions made under 19-4-602 and 19-4-605 must be refunded.

(e) For purposes of this subsection, termination pay includes any form of termination pay or any lump-sum payment for deferred compensation, sick leave, or accumulated vacation credit, or any other payment for time not worked other than compensation received while on sick leave or authorized leave of absence.

(6) "Beneficiary" means a person in receipt of a pension, annuity, retirement allowance, or other benefit provided by the retirement system.

(7) "Creditable service" is that service defined by 19-4-401.

(8) "Earned compensation" means the full compensation, pay, or salary actually paid to a member and reported to the retirement system, including amounts paid under a salary reduction agreement, a cafeteria plan, a tax sheltered annuity, a deferred compensation program, and the value of any housing provided by the employer. The employer shall fix the value of any housing provided. The term does not include any other amounts paid in kind or fringe benefits not actually paid to a member. The earned compensation is the full compensation, pay, or salary that would have been paid to a member for full-time service but was not paid to the member because of a reduction in compensation, pay, or salary due to a temporary absence, provided that the retirement system receives the contribution required by 19-4-413. The earned compensation of a member who had less than 3 consecutive years of full-time service during the 5 years preceding his retirement is the compensation, pay, or salary which he would have earned had his part-time service been full-time service. The earned compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary which he would have received had he completed the full year, except that any termination pay, as defined in subsection (5)(e), received by the member is limited to the amount actually paid and is not the amount he would have earned had he completed the full year.

The amount that must be paid to the retirement system to qualify this service under this section is the sum of subsections (2) and (3).

(2) The public employees' retirement system shall transfer to the teachers' retirement system an amount equal to 72% of the amount determined in accordance with subsection (3).

(3) The employee shall pay an amount equal to his accumulated contributions at the time he terminated active membership under 19-3-406 plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the public employees' retirement system.

(4) A member who qualifies service from the public employees' retirement system in the teachers' retirement system must complete 5 years of membership service in the teachers' retirement system to qualify or purchase military service, out-of-state teaching service, employment while on leave, and private school employment.

(5) The retirement board shall determine the service credits that may be transferred.

Compiler's Comments

1991 Amendment: Near beginning of (2), after "equal to", substituted "72% of the amount determined in accordance with subsection (3)" for "5% of the final compensation, as defined in 19-3-104, earned by the member multiplied by the total years of creditable service being transferred plus accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the public employees' retirement system. If the member had less than 3 full years of membership service, the final compensation must be based on the compensation reported to the public employees' retirement board by the employer.

(b) If the sum of the rates provided in 19-4-602 and 19-4-605 exceeded the sum of the rates provided in 19-3-701 and 19-3-801 at the time the employee terminated active membership under 19-3-406, the employee shall pay an amount in addition to that required in subsection (3)(a) to receive full credit for the service transferred. This additional amount is equal to:

(i) the final compensation as determined in subsection (2) multiplied by the total years of creditable service being transferred multiplied by the difference between the sum of the rates provided in 19-4-602 and 19-4-605 and the sum of the rates provided in 19-3-701 and 19-3-801; plus

(ii) accrued interest from the date of termination until payment is received by the retirement system, based on the interest tables in use by the retirement system.

(c) If the member chooses not to make the contribution as provided in this section, he shall receive credit for the service transferred, based on the ratio between the retirement systems' employee and employer contribution rates provided for under 19-3-701, 19-3-801, 19-4-602, and 19-4-605". Amendment effective February 27, 1991.

Retroactive Applicability: Section 3, Ch. 64, L. 1991, provided: "[This act] applies retroactively, within the meaning of 1-2-109, to service credits transferred between the public employees' retirement system and the teachers' retirement system on and after October 1, 1989."

19-4-410. Creditable service for extension service employment. (1) At any time before retirement, a member with 5 years or more of creditable service in the retirement system may make a written election with the retirement board to qualify up to 5 years of his employment service with the Montana cooperative extension service, subject to the limitation contained in 19-4-405, if:

(a) the member became a member of the retirement system before July 1, 1989;

(b) the service involved instructional service at a unit of the Montana university system; and

(c) the member received a refund of his membership contributions under the civil service retirement system or the federal employees' retirement system for the service to be qualified.

(2) To qualify service under this section, the member shall contribute to the retirement system an amount equal to the combined employer and employee contribution for his first full year's teaching salary earned after becoming a member of the retirement system for each year of creditable service plus interest at the rate the contribution would have earned had the contribution been in his account upon the completion of 5 years of membership service. The contribution rate must be that rate in effect at the time he is eligible for the service.

(3) Contributions to qualify service under this section may be made in a lump-sum payment or in installments as agreed upon by the member and the retirement board.

To qualify this service, a member shall contribute to the retirement system, upon his return to contributing membership service, an amount equal to:

(i) the contributions which would have been made by him had he not been absent, based on his compensation at the commencement of his absence;

(ii) interest, which begins to accrue 1 year from the date he returns to covered employment; and

(iii) interest not paid by the employer under subsection (1)(b).

(b) Whenever a member elects to contribute under subsection (1)(a), the employer shall contribute an amount equal to the contributions which would have been made by the employer had the member not been absent, based on the member's compensation at the commencement of his absence. The employer may contribute an amount equal to the interest accruing on the employer's contributions calculated in the same manner as interest on the employee's contributions under subsection (1)(a). If the employer elects not to pay the interest, this amount must be paid by the employee.

(2) A member shall file with the retirement board a written notice of his intent to pay the contributions under subsection (1)(a).

(3) Payment of the employee's contributions due because of the period of absence may be made in one sum at the time of filing the notice or on an installment basis before termination of covered employment.

(5) The maximum amount of membership service allowable under this section is 2 years.

(ii) each 5 years of membership service as defined in Title 19, chapter 3, for which contributions have been made as required under the provisions of 19-4-409.

(b) A maximum of 5 years of additional service may be purchased under this section. A part-time member may purchase additional service on a prorated basis.

(2) (a) To purchase additional service under this section, a member shall contribute, in a lump-sum payment or in installments as agreed upon by the member and the retirement board, an amount equal to:

(i) the combined employer and employee rate on July 1, 1989, or the combined rate in effect at the time he is eligible to purchase the service, whichever date is later, multiplied by his earned compensation as provided in subsection (2)(b); and

(ii) interest at a rate of 8% compounded annually from July 1, 1989, or from the date at which he is eligible to purchase the service, whichever date is later.

(b) The earned compensation used in calculating the cost of purchasing additional service under this section is:

(i) for the first year of service purchased, the member's earned compensation for the 1988-89 school year or for his fifth year of service, whichever year is later;

(ii) for the second year of service purchased, the member's earned compensation for the 1988-89 school year or for his 10th year of service, whichever year is later;

(3) On or after July 1, 1989, a member eligible to purchase creditable service under 19-3-504, 19-3-510, 19-3-512, 19-3-513, 19-4-402, 19-4-403, 19-4-408, 19-4-410, or 19-4-411 may not purchase additional service under this section unless he elects in writing to:

(a) waive his eligibility to purchase creditable service under sections referred to in subsection (3); and

(4) Additional service purchased under this section may not be used to qualify a member for service retirement.

19-4-602. Annuity savings fund — member's contribution. The annuity savings fund is a fund in which the contributions for the members to provide for their annuities shall be accumulated in individual accounts for each member. The normal contribution of each member is 7.044% of his earned compensation. Contributions to and payments from the annuity savings fund shall be made in the following manner:

(1) (a) Each employer, pursuant to section 414(h)(2) of the federal Internal Revenue Code of 1954, as amended and applicable on July 1, 1985, shall pick up and pay the contributions which would be payable by the member under this section for service rendered after June 30, 1985.

(b) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(c) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's wages as defined in 19-1-102 and his earned compensation as used to define his average final compensation in 19-4-101. The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(d) The deductions shall be made notwithstanding that the minimum compensation provided by law for a member may be reduced thereby. Every member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims whatsoever for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(2) In addition to the normal contributions and subject to the approval of the retirement board, any member may redeposit in the annuity savings fund, by a single payment or by an increased rate of contribution, an amount equal to any accumulated contributions which he has previously withdrawn, plus interest in the amount the contributions would have earned had the contributions not been withdrawn.

(3) The accumulated contributions of a member withdrawn by him or paid to his estate or to his designated beneficiary in event of his death shall be paid from the annuity savings fund. Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to the pension accumulation fund.

(b) retirement system's administrative and investment expenses for the fiscal year.

(2) (a) From the remainder obtained in subsection (1), the board shall calculate the amount of investment income earned on that portion of the retirement fund balance representing retired members.

(b) The board shall deposit the amount calculated in subsection (2)(a) in a reserve fund.

(3) Subject to the restrictions contained in subsections (4) and (5), the board shall annually use 90% of the amount in the reserve fund provided for in subsection (2)(b) to pay a postretirement adjustment to eligible members or beneficiaries under 19-4-713.

(a) dividing the amount available under 19-4-712(3) for payment of the postretirement allowance by the total accumulated years of service for all eligible members and beneficiaries;

(b) multiplying the quotient obtained in subsection (2)(a) by the member's total years of service;

(c) dividing the product obtained in subsection (2)(b) by a factor for calculating a monthly annuity from actuarial tables adopted by the board; and

(d) applying the provisions contained in subsections (3) and (4).

19-6-612. Medical examination of disability retiree — cancellation of allowance. (1) The board, in its discretion, may require the recipient of a disability retirement allowance to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by him when he retired. If the board determines that the recipient is not incapacitated, his disability retirement allowance must be canceled when he is offered a position under subsection (3). If the recipient refuses to submit to a medical examination, his retirement allowance must be canceled when he is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification within his capacity, whichever is first open. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) The department of justice may request a medical or psychological review as to the ability of the recipient to return to work as a member of the highway patrol. If the board's findings are upheld, the department shall pay the cost of the review.

(a) a retired patrol officer who is 55 years of age or older, except as provided in subsection (3), or his beneficiary, who is receiving a service retirement allowance;

(b) a retired patrol officer, or his beneficiary, who is receiving a disability retirement allowance; and

(c) a beneficiary receiving a survivorship allowance.

(2) (a) The maximum monthly benefit allowance paid under subsection (1) may not exceed 60% of the current base salary of a probationary highway patrol officer.

(b) The annual increase in a monthly benefit allowance under subsection (1) may not exceed 5% of the current monthly benefit allowance paid to a retired highway patrol officer or his beneficiary.

(3) A retired patrol officer otherwise qualified under subsection (1)(a) who is employed in a position covered by a retirement system under Title 19, chapters 3 through 13, is ineligible to receive the minimum monthly benefit allowance provided for in this section until his employment in the covered position is terminated.

History: En. Sec. 1, Ch. 14, L. 1987.

19-6-709. Supplemental benefits for certain retirees. (1) In addition to any retirement allowance payable under this chapter, a retired patrol officer or a beneficiary determined by the board to be eligible under subsection (2) shall receive an annual lump-sum payment beginning in September 1991 and each succeeding year as long as he remains eligible.

(2) To be eligible for the benefits under this section, a person must be receiving a monthly benefit before July 1, 1991, and must be:

(a) a retired patrol officer who is 55 years of age or older and who has been receiving a service allowance for at least 5 years prior to the date of distribution;

(b) a beneficiary of a patrol officer who would have been eligible under subsection (2)(a); or

(c) a recipient of a disability or survivorship allowance under 19-6-601 or 19-6-603.

(3) A retired patrol officer otherwise qualified under this section who is employed in a position covered by a retirement system under Title 19, chapters 3 through 13, is ineligible to receive any lump-sum payments provided for in this section until his employment in the covered position is terminated. Upon termination of his covered employment, the officer becomes eligible in the next fiscal year succeeding his termination.

(4) (a) Twenty-five cents of each motor vehicle registration fee provided for in 61-3-321 must be deposited in the highway patrol fund at the end of each fiscal year. The fee is statutorily appropriated, as provided in 17-7-502, for payment of benefits to eligible recipients. The total funds must be distributed by the department in lump-sum payments to eligible recipients along with their normal retirement allowance payment.

(b) The lump-sum payment must be distributed proportionally to all eligible recipients based on years of service at the time of retirement, subject to the following:

(i) a recipient under subsection (2)(c) is considered to have 20 years of service for the purposes of the distributions;

(ii) any recipient of a service retirement allowance exceeding the maximum monthly allowance under 19-6-707(2)(a) must have his years of service reduced 25% for the purposes of the distributions;

The intent of this subsection is to limit each annual individual supplemental benefit payment to no more than the increase in the consumer price index for the previous calendar year.

(c) Any amount deposited in the account, meaning the highway patrol officers' retirement pension trust fund, under subsection (4)(a) for the payment of supplemental benefits under this section that exceeds the limitation of subsection (4)(b)(iii) must be used to amortize unfunded liabilities of the account.

(5) Every 10 years following July 1, 1991, the department shall review the size of the additional fee collected under 61-3-321(5) and deposited in the

account in accordance with subsection (4)(a) and recommend to each legislature following the department's review any legislation necessary to reduce the fee to the minimum amount necessary to provide the supplemental benefits provided by this section.

19-7-308. Service under municipal police officers' retirement system prior to or following city-county consolidation. (1) A law enforcement officer who has not changed his employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's department or from a county sheriff's department to a city police force as a law enforcement officer is eligible for a service retirement benefit if his combined service in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which he last made contributions. A sheriff who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue his election. However, credit for service in the PERS which has not been transferred prior to January 1, 1979, may not be transferred.

(2) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(3) The service retirement benefit of an officer described in subsection (1) shall be calculated separately for each system based on the service credited under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the appropriate reduction in the retirement allowance for an optional retirement allowance elected under 19-7-701. The final salary or final average salary for each calculation shall be based on the highest salary earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credited, of the combined benefit. The combined benefit may not exceed 60% of the final salary or final average salary.

(4) Upon the death of an officer receiving a service retirement allowance under this section, the beneficiary and the continued benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the officer's surviving spouse, if there is one, shall, for as long as the spouse remains unmarried, receive from the fund a sum equal to the municipal police officers' retirement system portion of the officer's service retirement allowance as calculated at the time of his retirement. If the officer leaves one or more dependent children, then upon his death, if he leaves no surviving spouse or upon the death or remarriage of the surviving spouse, the officer's surviving dependent child, or children collectively if there are more than one, shall receive the same monthly payments a surviving spouse would receive for as long as the child or one of the children remains dependent as defined in 19-9-104. The payments must be made to the child's appointed guardian for the child's use. If there is more than one dependent child, upon each child no longer qualifying as dependent under 19-9-104, the pro rata payments to that child must cease and be made to the remaining children until all the children are no longer dependent.

(b) For the sheriffs' retirement system portion of the benefit, the officer's beneficiary, designated under 19-7-602, shall receive:

(i) an annuity as determined under 19-7-701, if the officer elected an optional retirement allowance; or

(ii) if the officer did not elect an optional retirement allowance, any payment owed the officer, including the excess, if any, of his accumulated deductions standing to his credit at the time of retirement less payments made to the officer.

19-7-309. Qualification of service from other Montana public retirement systems. (1) (a) A member may, at any time before his retirement, make a written election with the board to qualify all or any portion of his creditable service in the public employees', highway patrol officers', firefighters' unified, game wardens', or municipal police officers' retirement system for which he has received a refund of his membership contributions. To qualify this service, he must contribute to the retirement fund the actuarial cost of granting the service in the sheriffs' retirement system, as determined by the board, based on his compensation earned as a member of the former system and the normal contribution rate according to the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). This service may not be credited in more than one retirement system under Title 19.

(b) Upon receiving the member's payment under subsection (1)(a), the administrator shall transfer from the member's former retirement system to the sheriffs' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the sheriffs' retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before his retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by his public

employer. The board may grant service credit subject to the provisions of 19-7-201(2) upon contribution by the employee of the actuarial cost of granting this service in the sheriffs' retirement system, as determined by the board, based on the employee's compensation earned during this period of service and the normal contribution rate according to the most recent actuarial valuation of the system.

(b) The board is the sole authority under this subsection (2) in determining what constitutes full-time public service.

(c) This service may not be credited in more than one retirement system under Title 19.

(1) A member with 15 years or more of service may, at any time prior to his retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, except as provided in subsection (3), if he is not otherwise eligible to receive credit. To qualify military service, he must contribute to the account the actuarial cost of granting the service, to be determined by the board based on his compensation and normal contribution rate as of his 16th year and as many succeeding years as are required to qualify this service, plus accrued interest. Interest accrues from the date on which the member has completed the number of service years in excess of 15 needed to qualify the military service to the date he contributes. He may not qualify more of his military service than he has service in the sheriffs' retirement system in excess of 15 years. Military service purchased under this section may not be used in determining eligibility for a service retirement.

(2) If a member has retired from active duty in the armed forces of the United States with normal service retirement benefits, he may not qualify his military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) if his active duty in the armed forces of the United States is not more than 25% of the total of all his years of military service, including reserve and active duty time.

(3) The combined total purchase of additional years of service under the provisions of 19-7-311 and this section may not exceed 5 years.

History: En. Sec. 1, Ch. 14, L. 1987.

19-7-708. Eligibility for postretirement adjustment. (1) Except as provided in subsection (2), a member or beneficiary is eligible to receive a postretirement adjustment as provided in 19-7-710 if he is receiving a:

(a) service retirement allowance and is 55 years of age or older on or before June 30 in the year that the postretirement adjustment is made; or

(b) disability or survivorship allowance.

(2) A member or beneficiary is ineligible to receive a postretirement adjustment under subsection (1) unless he has been receiving a monthly service, disability, or survivorship allowance for at least 24 consecutive months on or before June 30 in the year the adjustment is made.

History: En. Sec. 1, Ch. 115, L. 1989.

19-7-709. Funding for postretirement adjustment — reserve fund. (1) At the end of each fiscal year, the board shall determine the total investment income earned on the retirement fund for that fiscal year. From this amount, the board shall subtract the:

(a) actuarial amount required to fund the retirement system for the fiscal year; and

(b) retirement system's administrative and investment expenses for the fiscal year.

(2) (a) From the remainder obtained in subsection (1), the board shall calculate the amount of investment income earned on that portion of the retirement fund balance representing retired members.

(b) The board shall deposit the amount calculated in subsection (2)(a) in a reserve fund.

(3) Subject to the restrictions contained in subsections (4) and (5), the board shall annually use 90% of the amount in the reserve fund provided for in subsection (2)(b) to pay a postretirement adjustment to eligible members or beneficiaries under 19-7-710.

(4) If the amount in the reserve fund is insufficient to provide an average monthly postretirement adjustment of at least $1 under 19-7-710, an adjustment may not be made in that calendar year.

(5) The amount available for payment of the postretirement allowance is limited to an amount that would provide a percentage increase in the average service, disability, or survivorship allowance of all eligible members, when combined with the postretirement adjustment, that is equal to or less than the percentage increase for the previous calendar year in the annual average consumer price index for urban wage earners and workers compiled by the bureau of labor statistics, United States department of labor, or its successor agency.

History: En. Sec. 2, Ch. 115, L. 1989.

19-7-710. Payment and amount of postretirement adjustment. (1) Effective January 1 of each year that funds are available under 19-7-709, a member or beneficiary eligible under 19-7-708 shall receive a postretirement adjustment in the form of a monthly benefit payable for life.

(2) The board shall calculate the amount of the postretirement allowance payable to an eligible member or beneficiary by:

(a) dividing the amount available under 19-7-709(3) for payment of the postretirement allowance by the total accumulated years of service for all eligible members and beneficiaries;

(b) multiplying the quotient obtained in subsection (2)(a) by the member's total years of service;

(c) dividing the product obtained in subsection (2)(b) by a factor for calculating a monthly annuity from actuarial tables adopted by the board; and

(d) applying the provisions contained in subsections (3) and (4).

(3) If a member had elected to receive an optional retirement allowance, the amount of his postretirement allowance must be adjusted by the appropriate optional factor.

(4) If more than one beneficiary is receiving a member's retirement allowance, the postretirement adjustment must be divided in the same manner as the member's retirement allowance.

19-8-712. Medical examination of disability retiree — cancellation of allowance. (1) The board, in its discretion, may require the recipient of a disability retirement allowance to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the duties of the position held by him when he retired. If the board determines that the recipient is not incapacitated, his disability retirement allowance must be canceled when he is offered a position under subsection (3). If the recipient refuses to submit to a medical examination, his retirement allowance must be canceled when he is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement allowance should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating his monthly allowance. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, he may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A recipient whose retirement allowance is canceled because the board has determined that he is no longer incapacitated must be reinstated to the position held by him immediately before his retirement or to a position in the same classification within his capacity, whichever is first open. The fact that he was retired for disability may not prejudice any right to reinstatement to duty that he may have or claim to have.

(4) The department of fish, wildlife, and parks may request a medical or psychological review as to the ability of the recipient to return to work as a game warden. If the board's findings are upheld, the department of fish, wildlife, and parks shall pay the cost of the review.

19-9-101. Short title. This chapter may be cited as the "Municipal Police Officers' Retirement Act".

History: En. 11-1860 by Sec. 1, Ch. 456, L. 1977; R.C.M. 1947, 11-1860.

19-9-102. Purpose — application of prior law. (1) As cities other than those participating in the statewide police reserve fund provided for in Chapter 335, Laws of 1974, currently have local police retirement funds, the legislature finds and declares that the law regarding such funds, although in conflict with this chapter, cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes local police retirement funds, applies to such cities, other than those of the first and second class, that wish to adopt it. The second, created by this chapter, applies to first- and second-class cities, those other cities that wish to adopt it, and any city that has adopted the above-mentioned statewide police reserve fund.

(2) The following may not be applied in any way to a city operating under the plan created by this chapter: 7-32-4107, 7-32-4120, 7-32-4131, and chapter 10 of this title.

History: En. 11-1892 by Sec. 33, Ch. 456, L. 1977; R.C.M. 1947, 11-1892; amd. Sec. 11, Ch. 114, L. 1979.

19-9-103. Municipal police officers' retirement system established. A municipal police officers' retirement system is established and shall be governed by the provisions of this chapter.

History: En. 11-1862 by Sec. 3, Ch. 456, L. 1977; R.C.M. 1947, 11-1862.

19-9-403. Election to qualify previous military service. (1) A member with 15 years or more of service may, at any time prior to his retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, if he is not otherwise eligible to receive credit. To qualify this service he must contribute to the account the actuarial cost of granting the service to be determined by the board based on his compensation and normal contribution rate as of his 16th year and as many succeeding years as are required to qualify this service, with interest from the date he becomes eligible for this benefit to the date he contributes. He may not qualify more of his military service than he has service in excess of 15 years.

(2) If a member has retired from active duty in the armed forces of the United States with normal service retirement benefits, he may not qualify his military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) if his active duty in the armed forces of the United States is not more than 25% of the total of all his years of military service, including reserve and active duty time.

19-9-503. Unfunded liabilities. (1) It is found and declared by the legislature that many cities operating under prior plans have excess and unfunded liabilities under such prior plans, which liabilities cannot be amortized by the percentage contributions set forth in 19-9-702 and 19-9-703.

(2) The administrator shall, on or before October 1, 1977, determine the excess and unfunded liability of each city which participates in the plan created by this chapter. The determination of the administrator, in the absence of fraud, abuse of discretion, or arithmetic error, is final and binding on each city. Each city found by the administrator to have an excess and unfunded liability under a prior plan which as of July 1, 1977, is not funded by sums on deposit or funds available for deposit with the administrator shall pay an additional sum over a period of time to amortize its excess liability as determined by the administrator. If any city and the administrator are unable by January 1, 1978, to negotiate and reduce to writing the terms of an agreement satisfactory to both of them for the city to amortize its excess liability, the administrator shall require such city to pay an additional sum to amortize its excess liability on July 1, 1977, over a period of not more than 40 years.

(3) Each city found by the administrator to be paying an amount in excess of the amount necessary to amortize its liabilities under the prior plan and

under this chapter shall receive a credit in the accounts of the administrator for any such excess payments.

(4) The excess unfunded liability for each city shall be revaluated by the administrator on July 1, 1980, as part of the normal actuarial valuations required in 19-9-504 reflecting the change in the contribution rates made in 19-9-601, 19-9-702, and 19-9-703, as amended by Chapter 375, Laws of 1979, and each city's funding position will be changed using the procedures of 19-9-107. The resulting report will be made available to the cities no later than October 1, 1980.

(5) If a majority of the cities participating in the municipal police officers' retirement system do not agree with the results of the revaluation outlined in subsection (4), they may, by mutual agreement of the cities, select a qualified actuary, as defined in 19-9-504, to perform a second actuarial valuation as of July 1, 1980, with the conclusions of the second actuarial valuation to replace the actuarial valuation discussed in subsection (4). The cost of the second actuarial valuation shall be paid by all cities participating in the system in proportion to their active membership in the system as of July 1, 1980.

(6) (a) On April 1, 1983, the administrator shall revaluate the excess unfunded liability for each city based on the actuarial valuation required in 19-9-504 for the period ended June 30, 1982. Each city with an excess unfunded liability as of June 30, 1982, shall pay 25% of this excess unfunded liability, with interest, in 10 annual installments, the first payment due May 1, 1983, and subsequent payments due May 1 of each year thereafter, with the final payment due May 1, 1992.

(b) Credits received by a city following the revaluation required in subsection (6)(a) must be reduced proportionately over a 10-year period beginning July 1, 1983.

(c) On July 1, 1993, each city shall pay the employer contribution rate specified in 19-9-703 without credit reduction, except for a city joining the plan after June 30, 1982. A city joining the plan after June 30, 1982, is subject to the provisions of 19-9-107.

(7) If a city is required to make payments on or after July 1, 1985, to amortize its excess and unfunded liability under a prior plan, these payments must be made by the state auditor from the premium taxes on insurance risks enumerated in 19-11-512.

(8) Subject to judicial review, the board is the determining body as to the interpretation and application of this section.

19-9-1007. Supplement to certain pensions. (1) The payment for each fiscal year to the police officers, surviving spouses, or dependent children described in subsections (2)(a) through (2)(c) may be not less than one-half of the base salary paid in the current fiscal year in the appropriate city or town to newly confirmed police officers, except that for the fiscal year beginning July 1, 1979, all retirees and their beneficiaries who received a supplement to their retirement allowance on July 1, 1978, and are receiving an allowance on July 1, 1979, shall receive a 3% increase in their retirement allowance in lieu of any other increase.

(2) On or before August 1 of each year, the department of administration shall make a report including the following information:

(a) the names of all police officers who are receiving payments from the plan as of the date of the report and were receiving payments from a prior plan before July 1, 1975;

(b) the names of all surviving spouses or dependent children who are receiving payments from the plan because of the death of a police officer who was receiving payments from a prior plan before July 1, 1975;

(c) the names of all surviving spouses or dependent children who are receiving payments from the plan and who were receiving payments from a prior plan before July 1, 1975, or in the case of dependent children, whose parent, the spouse of a police officer, was receiving payments from a prior plan before July 1, 1975;

(d) for the purpose of determining the base figure for the computations set forth in subsection (3), the following information relating to the base fiscal year commencing July 1, 1976:

(i) the amount of the payments made in the base fiscal year to each police officer described in subsection (2)(a);

(ii) the amount of the payments made in the base fiscal year to each surviving spouse or dependent child (or children) described in subsection (2)(b) or (2)(c);

(iii) upon the death after April 18, 1977, of any police officer on the retired list who was receiving payments from a prior plan before July 1, 1975, his surviving spouse or dependent children are entitled to receive payments from the plan, the amount which would have been paid to an eligible surviving spouse of such police officer had that spouse been receiving payments in the base fiscal year;

(e) the base salary for the current fiscal year of a newly confirmed police officer of each city or town participating in the plan.

(3) The department of administration shall compute the difference between each amount reported under subsections (2)(d)(i) through (2)(d)(iii) and one-half the base salary for the current fiscal year of a newly confirmed police officer of the appropriate city or town. The difference shall be reported to and paid by the state auditor out of the premium tax collected on insurance sold in this state to insure against the risks enumerated in 19-11-512(3) to the administrator no later than September 1. If the base salary of a newly

confirmed police officer has not been set for the current fiscal year in time to be included in the August 1 report to the state auditor, the department shall make any retroactive adjustments necessary to individual supplemental benefits after the base salary has been determined and shall include these amounts in the next year's report for reimbursement at that time. The premium tax amount paid by the state auditor is statutorily appropriated, as provided in 17-7-502. This payment is in addition to the payment to be made by the state auditor under 19-9-702. The administrator shall use the funds received under this subsection to supplement the monthly payments to persons described in subsections (2)(a) through (2)(c) so that the requirements of subsection (1) are met.

(4) In addition to the payments made by the auditor as provided in subsection (3), the auditor shall make annual payments of $100,000 after the end of each fiscal year but no later than September 1, until the sum of $500,000 has been paid to the administrator for deposit in the retirement account. These payments are statutorily appropriated as provided in 17-7-502. These payments are to be made to reimburse the retirement account for funds advanced to implement this section.

(5) If more than one dependent child is entitled to supplementary payments under this section by virtue of the death of a common parent police officer, the minimum payment to such dependent children under this section shall be determined as if there were one such dependent child and the supplementary payment shall be made to the dependent children collectively.

The pension shall be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years shall receive the pension provided for in subsection (1) increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department. No member is eligible to receive a service pension prior to attaining the age of 50 years.

(3) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary, excluding overtime and payments in lieu of sick leave and annual leave, paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. 19-12-401. Eligibility for pension benefits. In order to qualify for participation in the volunteer firefighters' pension plan under 19-12-404, a volunteer firefighter must meet each of the following requirements:

(1) (a) To qualify for full participation, he must have completed a total of at least 20 years' service as an active volunteer firefighter and as an active member of a qualified volunteer fire company.

(b) If a firefighter is prevented from completing at least 20 years' service by dissolution or discontinuance of his volunteer fire company, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control, he may qualify for partial participation if he has completed at least 10 years' service. In that event, he is eligible for only a proportion of the benefits specified in 19-12-404, determined by multiplying the benefits by a fraction, the numerator of which is the number of years of active service completed and the denominator of which is 20.

(c) The years of active service are cumulative and need not be continuous. The service need not be acquired with one single fire company but may be a total of separate periods of active service with different fire companies in different fire districts.

(d) Effective March 1, 1965, the annual period of service for the purpose of this chapter is the fiscal year. No fractional part of any year may count toward the service requirement, and to receive credit for any particular year, a volunteer firefighter must serve with one particular volunteer fire company throughout that entire fiscal year.

(2) (a) Except as provided in subsection (2)(b), he must have attained the age of 55, but he need not be an active volunteer firefighter or an active member of any volunteer fire company when he reaches that age.

(b) An active member of a volunteer fire company whose duty-related injury results in a permanent total disability as defined in 39-71-116 is eligible to receive a partial pension regardless of his age calculated as follows:

(i) for a member with less than 10 years of service, a pension calculated as provided in subsection (1)(b) in which the numerator equals 10; or

(ii) for a member with 10 years or more of service, a pension calculated as provided in subsection (1)(b).

(3) During each of the years for which he claims credit under subsection (1), he must have completed a minimum of 30 hours of instruction in matters pertaining to firefighting under a program formulated and supervised by the chief or foreman of his volunteer fire company.

(4) Effective July 1, 1965, no volunteer firefighter may receive credit for any year of membership in a volunteer fire company unless, throughout the year:

(a) the company maintained firefighting equipment in serviceable condition of a value of $2,500 or more; and

(b) the company or the fire district served by it was rated in class 5, 6, 7, 8, 9, or 10 by the board of fire underwriters for the purpose of fire insurance premium rates.

(5) He must have ceased to be an active member of any volunteer fire company, and if he applies for and receives pension benefits hereunder, he will not thereafter be eligible to become an active member of any volunteer fire company.

The claim must be filed on or before May 1 of the calendar year in which the claimant seeks to qualify for participation in the pension plan.

(2) The claim must contain:

(a) the name, address, and date of birth of the claimant and of the volunteer firefighter, if he is not the claimant;

(b) the fiscal year during which eligibility will commence; and

(c) the years during which service as a volunteer firefighter was rendered and the names of the volunteer fire companies with which the service was rendered.

(3) The board may require such proof of age and service as it may consider proper, but it must accept a certificate filed under 19-12-402 or subsection (3) of section 22, Chapter 157, Laws of 1977, as prima facie proof of such service.

(4) If the claim is properly filed and the claimant is found by the board to be properly qualified to participate in the volunteer firefighters' pension plan, the name of the claimant shall be added to the list of qualified persons and the claimant will then be entitled to participate in the volunteer firefighters' pension plan as of the fiscal year beginning July 1 next following the filing of the claim.

19-13-101. Short title. This chapter may be cited as the "Montana Firefighters' Unified Retirement Act".

History: En. Sec. 1, Ch. 566, L. 1981.

19-13-102. Purpose — application of prior law. (1) Because cities other than those of the first or second class currently have fire department relief associations, the legislature finds and declares that the law regarding these associations cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes fire department relief associations, applies to cities other than those of the first or second class that wish to adopt it. The second, created by this chapter, applies to cities of the first or second class and those other cities that wish to adopt it. The purpose of the second system is to provide equity and security for retired firefighters who served cities of the first and second class and other cities electing to join the plan by creating a centrally administered system responsible for continuing all retirement payments from the assets of the system.

(2) Title 19, chapter 11, may not be applied in any way to a city operating under the plan created by this chapter except as otherwise provided.

History: En. Sec. 2, Ch. 566, L. 1981.

The fire department relief association of the city may pass a resolution to the same effect. To qualify this service, he must contribute to the retirement fund the actuarial cost of granting the service in the firefighters' unified retirement system, as determined by the board, based on his compensation earned as a member of the former system and the normal contribution rate according to the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). This service may not be credited in more than one retirement system under Title 19.

(b) Upon receiving the member's payment under subsection (1)(a), the administrator shall transfer from the member's former retirement system to the firefighters' unified retirement system an amount equal to the employer contributions made during the member's service, but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the firefighters' unified retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before his retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by his public employer. The board may grant service credit subject to the provisions of 19-13-202 upon contribution by the employee of the actuarial cost of granting this service in the firefighters' unified retirement system, as determined by the board, based on the employee's compensation earned during this period of service and the normal contribution rate according to the most recent actuarial valuation of the system.

If the city that last employed him as a firefighter no longer employs a full-paid firefighter, the firefighter's or his beneficiary's allowance may not be less than one-half the average regular monthly salary paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter. In the case of volunteer firefighters, the retirement allowance may not exceed $75 per month. Distribution of the money provided for this purpose under 19-11-606(1) shall be made according to subsection (2).

(2) (a) At the beginning of each fiscal year the administrator shall request and, except as provided in subsection (2)(b), the state auditor shall issue from the state special revenue fund and deliver to the administrator an amount certified to be equal to the total annual dollar difference between the total retirement allowances paid to all retirees or their surviving spouses or children in the previous fiscal year and the total benefits payable on June 30, 1973. The administrator shall deposit this money into the fund.

(b) If insufficient money is contained in the state special revenue fund to pay the amount requested in subsection (2)(a), the auditor shall pay to the administrator the balance contained in the state special revenue fund. The administrator shall continue to request any portion of the amount requested under subsection (2)(a) not paid in previous fiscal years plus sufficient interest to reimburse the fund as defined in 19-13-104, and the auditor shall pay the requests as money in the state special revenue fund becomes available.

19-13-1007. Allowance adjustment. (1) For a member retiring on or after July 1, 1973, who was hired before July 1, 1981, or his surviving spouse or dependent children, the service retirement allowance provided in

19-13-704(1)(a), the disability retirement allowance provided in 19-13-803(1), and the survivorship allowance provided in 19-13-902(1) may not be less than one-half the monthly compensation paid to a newly confirmed, active firefighter of a city that last employed him as a firefighter, as provided each year in the budget of that city.

(2) For a member hired on or after July 1, 1981, or his surviving spouse or dependent children, the disability retirement allowance provided in 19-13-803(2) and the survivorship allowance provided in 19-13-902(2) may not be less than one-half the monthly compensation paid to a newly confirmed, active firefighter of a city that last employed him as a firefighter, as provided each year in the budget of that city.

(3) If after a member retires, the city that last employed him no longer employs a full-paid firefighter, the member's or his beneficiary's allowance under subsections (1) and (2) must be adjusted on the basis of the average monthly compensation paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter.

(4) If the employment of a vested member hired before July 1, 1981, is involuntarily discontinued before he reaches age 50 because of the termination of employment of all full-paid firefighters in the city that employed him, his service retirement allowance provided in 19-13-704(1)(b) and his spouse's or dependent child's survivorship allowance provided in 19-13-902(1) may not be less than:

(a) if the member has completed 20 years or more of service, one-half the average monthly compensation paid to all newly confirmed, full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter; or

(b) if the member has completed more than 10 but less than 20 years of service, 2% of the average monthly compensation paid to all newly confirmed, full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter, for each year of the member's service.

(5) In lieu of the benefit adjustment provided in subsection (4), a member may elect to receive an early retirement allowance, beginning upon termination of employment, that is the actuarial equivalent of the accrued portion of the service retirement allowance that would have been payable to him beginning at age 50.

19-13-1008. Maximum benefit limitation. No monthly benefit paid under the retirement system provided for in this chapter may exceed the annual limits on benefits as specified in section 415 of the Internal Revenue Code of 1986 and adjusted annually by the commissioner of internal revenue for calendar years 1988 and thereafter.

History: En. Sec. 1, Ch. 14, L. 1987.

19-13-1009. Supplement to retirement allowances for persons hired on or after July 1, 1981. (1) The administrator shall pay a supplemental allowance from the account provided for in 19-13-506 to each member hired on or after July 1, 1981, who has both completed 25 years of service and reached age 50 as an active firefighter or to his surviving spouse or dependent children. Except as provided in subsection (2), the supplemental allowance, when added to the service retirement allowance, must equal one-half the regular monthly compensation paid to a newly confirmed full-paid active firefighter of the city that last employed him as a firefighter as provided each year in the budget of that city. If after a member retires, the city that last employed him no longer employs a full-paid firefighter, the member's supplemental allowance must be calculated on the basis of the average monthly compensation paid to all newly confirmed full-paid firefighters, as provided each year in the budgets of those cities that participate in the plan and employ a full-paid firefighter.

(2) If the amount available to the account is insufficient to fully fund the supplemental allowance provided for in subsection (1), the supplemental allowance for each eligible member must be reduced by an equal percentage so that the amount contained in the account is not exceeded.

19-21-104 through 19-21-110 reserved.

19-21-111. Actuarial investigation to determine past service liability compared to contributions required. (1) The legislative auditor shall, using independent actuarial assistance as necessary and in cooperation with the teachers' retirement board and the board of regents, determine the dollar value of past service liability of active, inactive, and retired teachers' retirement system members of the Montana university system as compared to contributions required of the Montana university system on behalf of teachers' retirement system members pursuant to 19-4-605. The legislative auditor shall report his findings to the 53rd legislature. The office of the commissioner of higher education shall pay for the determination, required by this section, of past service liability of teachers' retirement system members compared to contributions required of the Montana university system.

(2) If the valuation determines that the percentage contribution established in 19-21-203(2)(b) has an adverse effect on the amortization of the unfunded liability, then the board of regents shall pay an additional sum over a period of 40 years to rectify the adverse effect.

(3) Changes in the teachers' retirement system occurring after July 1, 1987, that create additional unfunded liabilities may not be considered in the valuation, and the board of regents may not be required to pay any additional sum on that account except to the extent that those changes benefit members of the teachers' retirement system who are employees of the Montana university system.

(4) If the valuation determines that the board of regents is paying an amount in excess of that needed to amortize the unfunded liability, the

teachers' retirement board shall credit the board of regents for the excess payments. The board of regents shall credit the active participants in the optional retirement program with the excess payments.

History: En. Sec. 9, Ch. 494, L. 1987; amd. Sec. 1, Ch. 365, L. 1991.

Amendment effective April 6, 1991.

Part 2

Participation — Benefits

19-21-201. Participation in program. (1) Academic and professional administrative personnel with individual contracts under the authority of the board of regents are eligible for and may elect to participate in the optional retirement program instead of the teachers' retirement system. This election must be exercised:

(a) before January 1, 1988, for an eligible person hired before July 1, 1987;

(b) within 90 days after entry into service or before January 1, 1988, whichever is later, for a person hired in an eligible position on or after July 1, 1987; and

(c) within 30 days after receiving written notice of eligibility or before January 1, 1988, whichever is later, for an employee who becomes eligible to participate in the optional retirement program by reason of appointment, promotion, transfer, or reclassification to an eligible position.

(2) The election must be exercised by filing a written notice with the teachers' retirement system and the disbursing officer of the employer. The election is effective as of the date the notice is filed or January 1, 1988, whichever is later.

(3) If an eligible officer or staff member fails to exercise the election, as provided by this section, that person must remain or become a member of the teachers' retirement system.

(4) An election under this section is not effective unless the notice filed with the disbursing officer of the employer is accompanied by an appropriate application, if one is required, for the issuance of a contract or contracts under the program.

History: En. Sec. 3, Ch. 494, L. 1987.

19-21-202. Effect on rights under teachers' retirement system. (1) An election under 19-21-201 to participate in the optional retirement program is a waiver of all rights and benefits under the teachers' retirement system except as provided in this section.

(2) A member of the teachers' retirement system who elects to participate in the optional retirement program is considered, for the purpose of determining eligibility for rights and benefits under that system, to be no longer employed in a capacity that allows active membership in that system as of the effective date of the election. Thereafter, the member is considered an inactive member of the retirement system if qualified under 19-4-303, with

the rights and privileges provided under 19-4-603(1). A member who elects to participate in the optional retirement program who does not qualify as an inactive member under 19-4-303 is considered a terminated member of the retirement system under 19-4-304(4).

(3) A person who elects to participate in the optional retirement program is ineligible to be an active member of the teachers' retirement system while continuously employed in a position eligible to participate in the optional retirement program.

History: En. Sec. 4, Ch. 494, L. 1987.

19-21-203. Contributions. (1) Each optional retirement program participant shall contribute an amount equal to the member's contribution required under 19-4-602. The board of regents shall contribute an amount equal to the employer contribution required under 19-4-605.

(2) The board of regents' contribution must be apportioned and paid as follows:

(a) to the designated company or companies, an amount equal to the greater of:

(i) the employer contribution to the teachers' retirement system not used to amortize past service unfunded liability as that unfunded liability is limited by 19-21-111; or

(ii) an amount that, when added to the participant's contribution, is equal to 10% of the participant's earned compensation; and

(b) to the teachers' retirement system, the balance of the board of regents' contribution.

(3) The board of regents shall determine whether the participant's contribution is to be made by salary reduction under section 403(b) of the Internal Revenue Code of 1954 or by employer pick-up under section 414(h)(2) of that code.

(4) The disbursing officer of the employer or other official designated by the board of regents shall pay both the participant's contribution and the appropriate portion of the regents' contribution to the designated company or companies for the benefit of the participant.

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school

district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing the following alternative method of electing the members of the high school district board of trustees:

(i) one trustee to be elected from each elementary school district with territory included in the high school district; and

(ii) two or three trustees to be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees.

(b) (i) When the county superintendent receives a valid petition, the county superintendent shall order the trustees of the high school district to conduct an election on the next regular school election day on the proposition allowed under the provisions of subsection (3)(a).

(ii) If the electors of the district approve a proposition to establish the alternative method of electing the high school board of trustees, the county superintendent shall order that the members of the board of trustees be elected according to subsection (3)(a) at the next regular school election.

(c) Whenever the trustees are elected at one regular election under subsection (3)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be divided as equally as practicable among 1-, 2-, and 3-year terms.

(d) A petition to call an election for the purposes of subsection (3) may not be submitted to the county superintendent more than one time in each 5-year period.

20-3-353. Establishment and purpose of trustee nominating districts. (1) After the county superintendent has determined the number of additional trustee positions, he shall establish trustee nominating districts in that portion of the high school district without representation on the high school trustees. There shall be one trustee nominating district for each additional trustee position, except the additional trustee-at-large. Unless it is impossible, the trustee nominating district boundaries shall be coterminous with elementary district boundaries.

(2) The purpose of the trustee nominating district shall be to establish a representative district for the nomination and election of a resident of such district to be an additional member of the trustees of a high school district. The electors qualified to vote in the high school district under the provisions

of 20-20-301 and who reside in the trustee nominating district shall be the only electors who may vote for the additional trustee representing such district. They also shall be permitted to vote for a trustee position at large, if there is one, but for no other high school trustee position.

(3) Any additional trustee position established under the provisions of this section shall be filled in a manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section shall be subject to election at the next regular school election.

Whenever there is a revision of the taxable valuation of the high school district or the elementary districts within it or there is a reclassification of the elementary district which has its trustees placed on the high school district board of trustees, the county superintendent shall redetermine the number of additional trustee positions for the high school district in accordance with 20-3-352. If there is a change in the allowable number of additional trustee positions, the county superintendent shall reestablish the trustee nominating districts in accordance with 20-3-353. If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions are to terminate upon his order reestablishing the trustee nominating districts. If the number of additional trustee positions is more than the previous number of positions, such additional trustee positions shall be filled in the manner prescribed under the provisions of 20-3-309. 20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) "Designated state official" means the educational official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

(3) "Accept" or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) "State" means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) "Originating state" means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in his own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate

or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts

and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

Following such appeal, a hearing must be scheduled within 10 days and held within 30 days after the appeal, except that the period may be extended upon agreement between the teacher and the trustees. (c) the amount, if any, of each pupil's tuition payment that the trustees, in their discretion, may waive (any waiver of tuition shall be applied equally to all pupils); and

(d) the rate of the current school fiscal year tuition, as determined under the provisions of 20-5-305.

(2) When the county superintendent receives a tuition report from a district, he shall immediately send the reported information to the county superintendent of each county in which the reported pupils reside. In turn, every county superintendent shall notify each elementary district of his county of the tuition amounts owed to other elementary districts of the county or outside of the county. Such amounts shall be established from the tuition rate and other information reported by the district in which the pupil attended school. No tuition shall be due when a pupil attends less than 40 days of school in such district.

20-5-307. Budgeting, levy requirement, and paying elementary tuition. (1) The tuition amount that has been established in 20-5-305 must be paid during the ensuing school fiscal year. The trustees of the elementary district shall include the amount in the tuition fund of the preliminary budget. If the trustees should fail to include the amount or any portion of it in the preliminary budget, they shall adjust the budgeted amount in adopting the final budget to provide for the total tuition amount that is due during the ensuing school fiscal year. The adjustment is not subject to the budget adjustment provisions of 20-9-132.

(2) The county superintendent shall report the net tuition fund levy requirement for each elementary district to the county commissioners on the second Monday of August, and a levy on the district must be made by the county commissioners in accordance with 20-9-142. The levy requirement must be calculated by subtracting from the total expenditure amount authorized in the final tuition fund budget the sum of the fund balance in the tuition fund at the end of the immediately preceding school fiscal year plus any other anticipated money that may be realized in the tuition fund.

(3) The trustees shall pay by warrants drawn on the tuition fund the tuition amounts owed to each district included in the county superintendent's notification provided under the provisions of 20-5-306. At least one-half of the payments must be made in December, and the remaining payments must be made by June 15 of the fiscal year.

(4) Any unanticipated tuition receipts received under the provisions of chapter 7, part 4, or this part for the current school fiscal year must be deposited in a separate account of the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

20-5-311. High school tuition. (1) A child may be enrolled in and attend a high school outside of the high school district in which he resides when the high school is located in Montana or in a county of another state that is adjacent to the state of Montana. When a parent or guardian of a child wishes to have his child attend a school under the provisions of this section, he shall apply to the county superintendent of the county of his residence before July 1 of the school fiscal year for which he seeks approval except in those cases when substantial changes in circumstances occurred subsequently to justify later application. The application must be made on a tuition agreement form supplied by the county superintendent. The trustees of the district of residence, the trustees of the district in which the child wishes to attend school, and the county superintendent are the approval agents for tuition to another high school within the county. The county superintendent of the county of residence and the trustees of the district in which the child wishes to attend school are the approval agents for attendance outside the county.

(2) (a) The approval agents shall approve a tuition application when a child lives closer to a high school of another district than any high school located within his resident district or when, due to road or geographic conditions, it is impractical to attend the high school nearest his residence. However, the approval agents are not required to approve a tuition application for a student seeking to attend a high school outside the state of Montana or the resident district if the resident district provides transportation. This exception does not apply when the child resides in a county different from the county in which the school he wishes to attend is located.

(b) The approval agents shall approve a tuition application when a child, as a result of a court order or placement by a state agency or parent in a group home licensed by the state, is required to attend high school outside the district of residence:

(i) but within the state of Montana or another state that maintains a reciprocal tuition agreement under 20-5-314; or

(ii) in a state that does not have a reciprocal tuition agreement pursuant to 20-5-314. The amount of daily tuition may not be greater than the average daily cost per student in the district of residence. The amount of annual tuition may not be greater than the average annual cost per student in the district of residence. The county superintendent shall calculate the average annual and the average daily cost per student. For purposes of this subsection (b), the following do not apply:

(A) an order issued under Title 40, chapter 4, part 2;

(B) placement of a child with disabilities pursuant to Title 20, chapter 7, part 4.

(c) In approving a tuition agreement under this provision, unless the child is a child with disabilities, the approval agents may require the child to attend the high school closest to his residence. The approval agents may approve any other tuition application that satisfies the geographic requirements of this section.

(3) The trustees of the district where the child wishes to attend school shall approve or disapprove any tuition application submitted to them under the provisions of this section within 15 days after the receipt of the application.

(4) The county superintendent shall notify the parent or guardian and the trustees of the district where the child wishes to attend school of the tuition agreement approval or disapproval. If a tuition agreement is disapproved by one or more approval agents, the parent may appeal such disapproval to the county superintendent and, subsequently, to the superintendent of public instruction under the provision for the appeal of controversies in this title.

(5) The approval of any tuition agreement by all of the applicable approval agents or upon appeal shall authorize the child named in such agreement to enroll in and attend the school named in such agreement for the ensuing school fiscal year.

20-5-312. Reporting, budgeting, and payment for high school tuition. (1) Except as provided in subsection (2), on March 15, the trustees of each high school district shall determine the rate of tuition for the current school fiscal year by:

(a) totaling the previous school fiscal year's expenditures from the district general fund, the debt service fund, and, if the pupil is a resident of another county, the retirement fund;

(b) dividing the amount determined in subsection (1)(a) above by the October 1 enrollment of the district for the previous school fiscal year, as reported to the office of public instruction for purposes of accreditation pursuant to 20-7-102 and 20-9-344; and

(c) subtracting from the amount determined in subsection (1)(b) the per-ANB amount allowed by the foundation program schedules and the per-ANB amount that is the ANB value per mill calculated pursuant to 20-9-366, multiplied by the number of permissive and retirement mills levied.

(2) The tuition for a full-time high school special education pupil must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for full-time high school special education pupils as designated in 20-9-311 for funding purposes.

(3) Before July 15, the trustees shall report to the county superintendent of the county in which the district is located:

(a) the names, addresses, and resident districts of the pupils attending the schools of the district under an approved tuition agreement;

(b) the number of days of school attended by each pupil;

(c) the amount, if any, of each pupil's tuition payment that the trustees, in their discretion, have the authority to waive; and

(d) the rate of current school fiscal year tuition, as determined under the provisions of this section.

(4) When the county superintendent receives a tuition report from a district, he shall immediately send the reported information to the superintendent of each district in which the reported pupils reside.

(5) When the district superintendent receives a tuition report or reports for high school pupils residing in his district and attending an out-of-district high school under approved tuition agreements, he shall determine the total amount of tuition due the out-of-district high schools on the basis of the following per-pupil schedule: the rate of tuition, number of pupils attending

under an approved tuition agreement, and other information provided by each high school district where resident district pupils have attended school.

(6) The total amount of the high school tuition, with consideration of any tuition waivers, for pupils attending a high school outside the county of residence must be financed by the county basic special tax for high schools as provided in 20-9-334. In December, the county superintendent shall cause the payment by county warrant of at least one-half of the high school tuition obligations established under this section out of the first money realized from the county basic special tax for high schools. The remaining obligations must be paid by June 15 of the school fiscal year. The payments must be made to the county treasurer of the county where each high school entitled to tuition is located. Except as provided in subsection (8), the county treasurer shall credit tuition receipts to the general fund of the applicable high school district, and the tuition receipts must be used in accordance with the provisions of 20-9-141.

(7) For pupils attending a high school outside their district of residence but within the county of residence, the total amount of the tuition, with consideration of any tuition waivers, must be paid during the ensuing school fiscal year. The trustees of the sending high school district shall include the tuition amount in the tuition fund of the preliminary and final budgets. This budgeted tuition amount is not subject to the budget adjustment provisions of 20-9-132. The county superintendent shall report the net tuition fund levy requirement for each high school district to the county commissioners on the second Monday of August, and a levy on the district must be made by the county commissioners in accordance with 20-9-142. The levy requirement must be calculated by subtracting from the total expenditure amount authorized in the final tuition fund budget the sum of the fund balance in the tuition fund at the end of the immediately preceding school fiscal year plus any other anticipated money that may be realized in the tuition fund. The trustees shall pay by warrants drawn on the tuition fund the tuition amounts owed to each district included in the county superintendent's notification. Payments must be made whenever there is a sufficient amount of cash available in the tuition fund but no later than the end of the school fiscal year for which the budget is adopted. However, if the trustees of either the sending or receiving high school district feel the transfer privilege provided by this subsection is being abused, they may appeal to the county superintendent of schools, who shall hold a hearing and either approve or disapprove the transfer.

(8) Any unanticipated tuition receipts received under the provisions of chapter 7, part 4, or this part for the current school fiscal year must be deposited in a separate account of the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

Part 1
School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term "district" means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as "District No. ...., ... County" and a high school district, except a high school district where a county high school is operated, is known as "High School District No. ...., ... County". A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) Unless the context clearly indicates otherwise, an elementary district operating a high school in a county that has not been divided into high school

districts is considered a high school district under this title and the trustees of the elementary district are the trustees of the high school district. An elementary district operating a high school may not have the bonding authority of a high school district. However, the elementary district may exercise its bonding authority, in the manner provided by law, for high school purposes.

(5) As used in this title, unless the context clearly indicates otherwise, a county high school is considered a high school district subject to the limitations prescribed by law for a county high school as a result of its being a part of the county government. The boundaries of the high school district for a county high school are:

(a) the high school district boundaries established by the county high school boundary commission; or

(b) if no boundaries have been established, the county boundaries, except for any territory located in a joint high school district.

(6) A county high school recognized as a high school district under the provisions of subsection (5)(b) may not have a bonding authority. Instead, the county shall exercise its bonding authority in the manner provided in 20-9-451.

Compiler's Comments

(1) The board of county commissioners shall maintain a permanent record which plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in his office and shall be responsible for keeping the record current.

(2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, he shall change, harmonize, and describe them accurately, and he shall make a report of such boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, such boundaries shall be the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

Part 2

Elementary School Districts

20-6-201. Elementary district classification. (1) Each elementary district shall have a classification of:

(a) first class, if it has a population of 6,500 or more;

(b) second class, if it has a population of 1,000 or more but less than 6,500; or

(c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district shall be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare such district's classification to be changed in accordance with the determined population, except that the classification of an elementary district shall not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions shall be filled in the manner provided for filling trustee vacancies. Such positions shall be subject to election on the next regular school election day. If the county superintendent changes an elementary district's classification with the result that a lesser number of trustees is required, the next elementary trustee positions that become vacant under any circumstances shall not be filled until the number of elementary trustee positions has been reduced to the number required by law.

(1) At the time the consolidation proposition is first considered, the districts involved shall jointly determine whether the consolidation shall be made with or without the mutual assumption of the bonded indebtedness of each district by all districts included in the consolidation proposition.

(2) A consolidation proposition may be introduced, individually, in each of the districts by either of the two following methods:

(5) After the county superintendent has received the election certification under the provisions of 20-20-416 from the trustees of each district included in a consolidation proposition, he shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, he shall, within 10 days after the receipt of the last election certificate, order the consolidation of such districts. If it be for consolidation with the mutual assumption of bonded indebtedness of each elementary district by all districts included in the consolidation order, such order shall specify that all the taxable real and personal property of the consolidated district shall assume the bonded indebtedness of each district. In addition, such order shall specify the number of the consolidated elementary district and shall contain the county superintendent's appointment of the trustees for the consolidated district who shall serve until a successor is elected at the next succeeding regular school election and qualified. The superintendent shall send a copy of such order to the board of county commissioners and to the trustees of each district incorporated in the consolidation order.

(6) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts shall fail, and

the county superintendent shall notify each district of the disapproval of the consolidation proposition.

(1) Any joint elementary district shall be abandoned for the reasons prescribed in 20-6-209 or when the taxable value of the taxable property of the portion of the joint district that is located within any one of the counties is of so little value that the continued inclusion of such portion in the joint district is not justified. The boards of trustees designated by 20-9-151 for school budgeting purposes shall be responsible for ordering the abandonment of the joint district and shall immediately send a copy of such order to the county superintendent of each county with territory in the joint district.

(2) After the issuance or receipt of the abandonment order, each county superintendent shall attach the territory within his county to a contiguous elementary district within his county; except when the district is abandoned because of the lack of taxable property in one county's territory of the district and a school is operated in another county's territory of the district which territory has a taxable value of $75,000 or more, the county superintendent of the county where such territory is located shall not attach it to another

district. Such territory shall continue to operate as an elementary district within the county.

(3) Any abandonment of a joint elementary district shall become effective on the date of the abandonment order except that district abandonments under the provisions of 20-6-209(1)(a) shall become effective on July 1.

20-6-211. Joint elementary district dissolution. (1) Any joint elementary district may be dissolved. A proposition to dissolve a joint elementary district shall be introduced by a petition signed by a majority of the electors, qualified under the provisions of 20-20-301, who reside in the territory of the joint district that is located within one county. Such petition shall be addressed and presented to the county superintendent of the county of residence of the petitioners.

(2) Whenever a county superintendent receives a valid petition for the dissolution of a joint elementary district, he shall immediately notify the county superintendents of all the other counties with territory located in the joint district. The county superintendents jointly shall, within 10 days after the receipt of the petition and as provided by 20-20-201, order the trustees of the joint district to call an election. The trustees shall call and conduct, at the same time, separate elections in each portion of the joint district that is located in a separate county. Such elections shall be called and conducted in the manner prescribed in this title for school elections and shall be considered as if each were an election in a separate district. An elector who may vote at a joint district dissolution election shall be qualified to vote under the provisions of 20-20-301. The election judges for each separate election in the joint district shall send the election certificate to the county superintendent of the county in which they serve.

(3) After the receipt of the election certificates, the county superintendents shall jointly determine the result of such election on the following basis:

(a) if a majority of all the joint district electors voting at each election conducted in the joint district are in favor of the dissolution of the joint district, the dissolution of the joint elementary district shall be approved;

(b) if two-thirds of the electors voting at one of the elections conducted in a county's portion of the joint district vote in favor of the joint district dissolution, the dissolution of that portion of such joint district may be approved if all the county superintendents involved in such dissolution proposition agree that such dissolution will not place an undue hardship on any other county's portion of the joint district and there is no good and sufficient reason why such dissolution should not be made; or

(c) if the conditions of either subsection (a) or (b) cannot be satisfied, the dissolution of the joint district shall be disapproved.

(4) The county superintendents shall jointly order the joint elementary district dissolution if the proposition is approved and, whether it has been approved or disapproved, shall jointly notify the joint district of the result.

The dissolution of a joint district shall become effective on the first day of the ensuing school fiscal year.

(5) When the dissolution of a joint elementary district has been approved and ordered under subsection (3)(a) above, the county superintendent of each county shall individually order the attachment of the territory of the dissolved joint elementary district within his county to a contiguous elementary district within his county except when a school is operated in such territory, in which case the territory shall operate as a separate elementary district of the county.

(6) When the dissolution of a joint elementary district has been approved and ordered under the provisions of subsection (3)(b) above, the county superintendent of the county where the dissolved portion of the joint elementary district is located shall attach such territory to a contiguous elementary district within his county.

(7) In the event a dissolution proposition is disapproved, no subsequent joint elementary district dissolution election shall be held within 3 years thereafter.

20-6-213. Transfer of territory from one elementary district to another. (1) A majority of the registered electors of an elementary district who reside in territory that is a part of an elementary district may petition the county superintendent to transfer the territory in which they reside to another elementary district if:

(a) the territory to be transferred is contiguous to the district to which it is to be attached;

(b) the territory to be transferred is not located within 3 miles, over the shortest practical route, of an operating school of the district from which it is to be detached;

(c) the transfer of the territory will not reduce the taxable value of the district to less than $100,000 unless the remaining territory of the district will contain not less than 50,000 acres of nontaxable Indian land;

(d) the board of trustees of the school district that would receive the territory has approved in writing the transfer; and

(e) the territory proposed to be transferred to another elementary district has not been included in a petition filed under this section in the previous 3 years.

(2) The petition must be addressed to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the elementary district to which it is to be transferred;

(b) state the reasons why the transfer is requested;

(c) state the number of elementary school-age children residing in the territory; and

(d) be accompanied by a $50 nonrefundable filing fee.

(3) A petition that meets the criteria specified in subsection (1) and that contains all the information required by subsection (2) is considered a valid petition. On receipt of a valid petition for a territory transfer, the county superintendent shall:

(a) file the petition;

(b) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. The notices must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(4) The county superintendent shall conduct the hearing as scheduled in accordance with the rules of procedure adopted by the superintendent of public instruction pursuant to 20-3-107(3), and any resident, taxpayer, or representative of the affected districts must, upon request, be heard.

(5) Within 30 days after the hearing, the county superintendent shall, after considering the testimony and exhibits presented at the hearing, issue findings of fact, conclusions of law, and an order. The county superintendent shall grant or deny the requested transfer of territory. The decision must be based on the effects that the transfer would have on those residing in the territory proposed for transfer as well as those residing in the remaining territory of the elementary district.

(6) The decision of the county superintendent is final 30 days after its date unless it is appealed to the board of county commissioners by a resident, taxpayer, or representative of the elementary districts affected by the territory transfer.

(7) The decision of the board of county commissioners, after a hearing on the matter and consideration of the record from the county superintendent's hearing, is final 30 days after its date unless prior to that time it has been contested through the filing of a valid petition to submit the question to a vote of the people in the elementary district from which the land is to be transferred. In order for a petition to be valid, the petition must be signed by 20% of the electors of the elementary district who are qualified to vote in elections for that district under 20-20-301. When a valid petition is submitted under this subsection, the question of whether the territory must be transferred to another district must be put before the voters at the next regular school election in the affected elementary district. The results of the vote must be the final decision on the petition for transfer of territory.

(8) Whenever a petition to transfer territory from one elementary district to another elementary district creates a joint elementary district or affects

the boundary of an existing joint elementary district, the petition to transfer territory must be presented to the county superintendent of the county where the territory is located. The county superintendent shall notify any other county superintendents of counties with elementary districts affected by the petition, and the duties prescribed in this section for the county superintendent and the board of county commissioners must be performed jointly by the county officials.

(4) the territory to be included in the new district shall consist only of parcels of land that are contiguous; and

(5) there is a compelling need, such as a significant increase in school-age population of the territory to be included in the new district, the extreme isolation of such population, or an emergency situation.

20-6-217. Procedure for creation of new elementary district. (1) The petition requesting the creation of a new elementary district out of the territory of an elementary district or districts shall be addressed to the county superintendent and shall:

(a) describe the territory that is requested to be incorporated in the new district and the taxable value of such territory as shown by the last completed assessment roll;

(b) state the reasons why the creation of a new district is requested, in accordance with the provisions of 20-6-216(5); and

(c) be signed by the parents or guardians of not less than 10 children between the ages of 6 and 16 years who reside in the territory that would be included in the new district and who reside more than 3 miles over the shortest practical route from an operating school.

(2) When a county superintendent receives a valid petition requesting the creation of a new district, he shall:

(a) file such petition;

(b) set a hearing place, date, and time for consideration of such petition that is not more than 40 days after the receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. The notices shall be posted in the districts affected by the request in the manner prescribed in this title for school elections, with at least one such notice posted in the territory to be included in the new district.

(3) The county superintendent shall conduct the hearing as scheduled unless before or at the time of the hearing he receives a protest petition signed by a majority of the electors of the proposed new district who are qualified to vote under the provisions of 20-20-301. A valid protest petition shall conclusively deny the creation of a new district. If a hearing is conducted, any resident or taxpayer of the affected districts shall be heard. If the county superintendent considers it advisable and in the best interests of the residents of the proposed new district and the residents of the remaining district, he shall grant the petitioned request and order the creation of a new elementary district with its boundaries coinciding with the boundaries defined in the petition. Otherwise, he shall, by order, deny the request. In the order creating the new district, the county superintendent shall establish the effective date for its creation and the procedures for effecting an orderly transition.

Such appeal shall be in writing, signed by not less than three resident taxpayers, and shall state sufficient facts to show the appellants' right to appeal the order. The board of county commissioners shall call a hearing of such appeal for the first regular meeting of the commission that will allow notice of the hearing to be given in accordance with the requirements for notice of school elections. After considering the material presented at the county superintendent's hearing and such other material as is presented at its hearing, the board of county commissioners shall render a decision on the creation of such new elementary district. Such decision shall be final.

(5) When a new elementary district is created, the county superintendent shall appoint the trustees of the new district, giving preference in his selections to any trustees who were trustees of an old district and who reside in the new district. Any trustee position vacancies that may occur in the other districts shall be filled in the manner provided for filling trustee position vacancies for such district. Any trustee appointed under the provisions of this section shall serve until a successor is elected at the next regular school election and qualified.

(6) The order of the county superintendent or, if his order is appealed, the decision of the board of county commissioners creating a new district under this section shall be null and void, and the new district shall cease to exist, if such district does not open and operate a school within 2 years after the date of such order or decision. If the new district does not satisfy this requirement, the territory shall be reincorporated in the district or districts in which it was located before the creation of such new district and the trustees shall thereafter be without capacity to act.

(7) If a petition has been filed under the provisions of this section and denied by the county superintendent, no new petition may be filed until 1 year after the final decision on the original petition.

20-6-309. Procedure for organization of joint high school district. The high school district boundary changes permitted under 20-6-308 shall be made according to the following procedure:

(1) A majority of the electors of a joint elementary district who are qualified to vote under the provisions of 20-20-301 and who reside in a county where the elementary school is not located may petition the county superintendent of their resident county to transfer the territory of the joint elementary district where they reside to establish a joint high school district. (2) When the county superintendent receives a valid petition requesting the establishment of a joint high school district, he shall set a time, date, and place for a public hearing on the request which is not more than 40 days after the receipt of the petition. He shall give notice of such hearing in accordance with the election requirements for school election notices prescribed by school election provisions of this title. Otherwise, he shall, by order, deny the request.

(4) If the county superintendent orders the establishment of a joint high school district, he shall immediately send the order to the county superintendent of the county where the high school is located. 20-6-312. County high school unification. (1) Any county high school may be unified with the elementary district where the county high school building is located to establish a unified school system under a unified board of trustees. If the county has not been divided into high school districts, a high school district with boundaries coterminous with the county boundaries shall be created, except that such high school district shall not include the territory of any existing joint high school district located in the county. The territory of an existing joint high school district shall remain a part of such joint high school district. The creation of high school districts under this provision shall be in lieu of the high school district division provisions of 20-6-303.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located shall be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the county or, if the county has been divided into high school districts, the electors of the high school district where the county high school is located, and who are qualified to vote under the provisions of 20-20-301, petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, he shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition shall be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition shall be substantially in the following form:

"OFFICIAL BALLOT
COUNTY HIGH SCHOOL UNIFICATION
ELECTION

Shall .... County High School be unified with District No. ...., ... County to establish a unified school system under a unified board of trustees?

☐ FOR the unification of the county high school.

☐ AGAINST the unification of the county high school."

(4) When the county superintendent receives the election certificate from the trustees of the county high school, he shall issue an order declaring the unification of the county high school with the elementary district identified on the ballot as of the next succeeding July 1, if a majority of those electors voting at such election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, he shall order the disapproval of the unification proposition.

20-6-313. Transactions after approved county high school unification. (1) Whenever a county high school is unified with the elementary district where the county high school building is located, the following transactions shall be completed on or before the July 1 when the unification becomes effective:

(a) The high school boundary commission, without the approval of the superintendent of public instruction, shall order the creation of a high school district if the county has not already been divided into high school districts.

(b) The county high school trustees, who shall not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(c) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes such areas, he shall appoint additional high school district trustees from each area who shall hold office until a successor is elected at the next regular school election and qualified.

(d) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(e) The board of county commissioners shall execute, in the name of the county, all necessary and appropriate deeds, bills of sale, and other instruments for the conveyance of title to all real and personal property of the county high school, including all appurtenances and hereditaments, to the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district shall be responsible for the maintenance of the debt service fund for such bonds. It shall be the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

(2) the entire territory or portion of a joint high school district located in one county is annexed or attached to another high school district; or

20-6-315. District consolidation. Any two or more high school districts in one county may consolidate to organize a high school district. The consolidation must be conducted under the following procedure:

(1) At the time the consolidation proposition is first considered, the districts involved shall jointly determine whether the consolidation is to be made with or without the mutual assumption of the bonded indebtedness of each district by all districts included in the consolidation proposition.

(2) A consolidation proposition may be introduced, individually, in each of the districts by either of the following methods:

(a) the trustees may pass a resolution requesting the county superintendent to order an election to consider a consolidation proposition involving their district; or

(b) not less than 20% of the electors of a high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent requesting an election to consider a consolidation proposition involving their district.

(4) (a) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections.

(b) In addition:

(ii) if the districts to be consolidated are not to mutually assume the bonded indebtedness of each district involved in the consolidation, the consolidation election must also follow the procedures prescribed in 20-6-207.

(5) After the county superintendent receives the election certificate provided for in 20-20-416 from the trustees of each district included in a consolidation proposition, he shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, he shall, within 10 days after the receipt of the election certificate, order the consolidation of such districts. If the order is for consolidation with the mutual assumption of bonded indebtedness of each high school district by all districts included in the consolidation order, the order shall specify that all taxable real and personal property of the consolidated district shall assume the bonded indebtedness of each district. In addition, the order shall specify the number of the consolidated high school district. The superintendent shall send a copy of the order to the board of county commissioners and to the trustees of each district incorporated in the consolidation order.

(6) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts fails and the county superintendent shall notify each district of the disapproval of the consolidation proposition.

(1) A majority of registered electors of a high school district who reside in territory that is a part of a high school district may petition the county superintendent to transfer the territory in which they reside to another high school district if:

(a) the territory to be transferred is contiguous to the high school district to which it is to be attached;

(b) the territory to be transferred is not located within 3 miles, over the shortest practical route, of an operating school of the high school district from which it is to be detached;

(c) the transfer of the territory will not reduce the taxable value of the district to less than $300,000 unless the remaining territory of the high school district contains not less than 50,000 acres of nontaxable Indian land;

(d) the board of trustees of the school district that would receive the territory has approved in writing the transfer; and

(e) the territory proposed to be transferred to another high school district has not been included in a petition filed under this section in the previous 3 years.

(2) The petition must be addressed to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the high school district to which it is to be transferred;

(b) state the reasons why the transfer is requested;

(c) state the number of high-school-age children residing in the territory; and

(d) be accompanied by a $50 nonrefundable filing fee.

(3) A petition that meets the criteria specified in subsection (1) and that contains all the information required by subsection (2) is a valid petition. On receipt of a valid petition for a territory transfer, the county superintendent shall:

(a) present the petition to the board of county commissioners for certification that the criteria set forth in subsection (1) have been met. The board shall, within 10 days of receiving the petition, return it to the county superintendent with certification, signed by a majority of the board, that the criteria have been met or with a notation, signed by a majority of the board, that the criteria have not been met. The board's certification is binding on the county superintendent unless the county superintendent believes that the certification is in error. A dispute between the board and the county superintendent on this issue must be decided by the superintendent of public instruction and the decision of the superintendent of public instruction on the matter is final.

(b) file the petition as certified by the board of county commissioners.

(4) If the petition is certified or adjusted on appeal to the superintendent of public instruction to meet the criteria specified in subsection (1), the county superintendent shall:

(a) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after receipt of the petition; and

(b) give notice of the place, date, and time of the hearing. The notices must be posted in the high school districts affected by the petition for the territory transfer in the manner prescribed in this title for school elections, with at least one notice posted in the territory to be transferred.

(5) The county superintendent shall conduct the hearing as scheduled in accordance with the rules of procedure adopted by the superintendent of public instruction pursuant to 20-3-107(3), and any resident, taxpayer, or representative of either affected high school district must be heard.

(6) Within 30 days after the hearing, the county superintendent shall, after considering the testimony and exhibits presented at the hearing, issue findings of fact, conclusions of law, and an order. The county superintendent shall grant or deny the requested transfer of territory. The decision must be based on the effects that the transfer would have on those residing in the territory proposed for transfer as well as those residing in the remaining territory of the high school district.

(7) The decision of the county superintendent is final 30 days after its date unless it is appealed pursuant to 20-3-107 to the superintendent of public instruction by a resident, taxpayer, or representative of either high school district affected by the petitioned territory transfer. The decision of the superintendent of public instruction, after consideration of the record from the county superintendent's hearing, is final 30 days after its date. The final order of the superintendent of public instruction is subject to judicial review pursuant to the Montana Administrative Procedure Act, Title 2, chapter 4.

(8) If a petition to transfer territory from one high school district to another high school district would create a joint high school district or affect the boundary of any existing joint high school district, the petition must be presented to the county superintendent of the county where the territory proposed for transfer is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly by such county officials.

20-6-325. Procedure for creation of new high school district out of existing districts — limitation for creation. (1) To create a new high school district, a petition requesting the creation of a new high school district out of the territory of an existing high school district or districts must be addressed to the county superintendent and must:

(a) describe the territory that is requested to be incorporated in the new district and the taxable value of such territory as shown by the last completed assessment roll;

(b) state the reasons why the creation of a new district is requested; and

(c) be signed by the parents or guardians of not less than 50 children who are at least 14 years old but less than 18 years old and who reside in the territory that would be included in the new district and who reside more than 20 miles over the shortest practical route from an operating high school.

(2) When a county superintendent receives a valid petition requesting the creation of a new district, he shall:

(a) file such petition;

(b) set a hearing place, date, and time for consideration of the petition that is not more than 40 days after the receipt of the petition; and

(c) give notice of the place, date, and time of the hearing. Notices must be posted in the high school districts affected by the request in the manner prescribed in 20-20-204 for school elections, with at least one such notice posted in the territory to be included in the new district.

(3) The county superintendent shall conduct the hearing as scheduled unless before or at the time of the hearing he receives a protest petition signed by a majority of the electors of the proposed new district who are qualified to vote under the provisions of 20-20-301. A valid protest petition conclusively denies the creation of a new district. If a hearing is conducted, any resident or taxpayer of the affected districts must be heard. If the county superintendent considers it advisable and in the best interests of the residents of the proposed new district, he shall grant the petitioned request and order the creation of a new district with its boundaries coinciding with the boundaries defined in the petition. Otherwise, he shall by order deny the request. In the order creating the new district, the effective date for its creation must be the following July 1.

(4) The county superintendent's order may be appealed to the superintendent of public instruction within 30 days after the date of such order. An appeal must be in writing and be signed by not less than 10 residents of the proposed new district. The superintendent of public instruction shall:

(a) call a hearing on the appeal not less than 20 days or more than 30 days from receipt of the appeal;

(b) provide notice of the hearing in the manner prescribed in subsection (2)(c);

(c) consider the material presented at the county superintendent's hearing and pertinent other material; and

(d) render a decision on the creation of such new high school district. The decision is final.

(5) When a new high school district is created, the trustees of the elementary district in which the high school buildings are located are the trustees of the new district. A trustee appointed under the provisions of this section shall serve until a successor is elected at the next regular school election and is qualified.

(6) If the district does not open and operate a school within 2 years after the effective date of the creation of the new district, the order of the county superintendent or, if his order is appealed, the decision of the superintendent of public instruction creating a new district under this section is void and the new district ceases to exist. If the new district does not satisfy this requirement, the territory must be reincorporated in the district or districts in which

it was located before the creation of the new district and the trustees are without capacity to act.

(7) If a petition has been filed under the provisions of this section and denied by the county superintendent, no new petition may be filed until 1 year after the final decision on the original petition.

(8) For the purposes of this section, the taxable value of the taxable property of the territory proposed to be included in the new district must be at least $1 million, unless 50,000 acres or more of such proposed new district are nontaxable Indian land, and the taxable value of the taxable property of each existing district from which territory would be detached must be at least $2 million after the territory is detached.

20-6-401. Definitions. As used in this part, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Component districts" means the elementary or high school districts incorporated into the enlarged district.

(2) "Eligible pupils" means the average number belonging (ANB) in the operating schools of the component districts and the tuition pupils residing in the component districts and attending another district's school under the tuition provisions of the school laws, except that the pupils residing in the component district having the largest total number of pupils are ineligible for bonus payment consideration.

(3) "Enlarged district" means the elementary or high school district resulting from the consolidation or annexation of two or more component districts.

(4) "General bonus payment" for first- and second-class school districts must be $450 per eligible pupil per year for a period of 3 years and must be deposited in the enlarged district's general fund. General bonus payment for third-class school districts must be $750 per eligible pupil per year for a period of 3 years and must be deposited in the enlarged district's general fund. The general bonus payment must be made from the state school equalization aid account.

(5) "Transportation bonus payment" is the provision of 66 2/3% state financing of the on-schedule transportation amount as provided by the transportation provisions of the school laws. The payment must be made from the state transportation aid account. When the eligible pupil rides a bus providing transportation for ineligible pupils, the 66 2/3% state financing of the on-schedule amount for this payment must be prorated to provide financing for the eligible pupil.

After the new district has operated a school for 1 month, the county superintendent shall order the county treasurer to transfer the cash to which the new district is entitled to the credit of the fund of the new district which corresponds with the fund from which it was transferred. 20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when such opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least three pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school during the ensuing school fiscal year. Such petition shall identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend such school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of such school would be five or more.

(3) The county superintendent shall present the petition, trustees' approval, and his findings on the probable ANB to the board of county commissioners (budget board) for their consideration. The budget board shall deny the opening or reopening of any school if the county superintendent's enrollment estimate for such school is less than five ANB. In all other cases, the budget board may approve or disapprove the requested opening or reopening of the elementary school.

(4) If the budget board approves a school opening or reopening, the county superintendent shall send a copy of such approval, along with the petition, trustees' approval, and his estimate of the probable ANB, to the superintendent of public instruction. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for such school and such ANB amount shall be used for budgeting and foundation program purposes during the ensuing school fiscal year. No ANB amount shall be approved for the ensuing school fiscal year for an opening or reopening school when the request for such school has not been received by the superintendent of public instruction before the fourth Monday of June.

(1) Whenever the trustees of a district determine that a site, building, or any other real or personal property of the district is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district, the trustees may sell or otherwise dispose of the real or personal property in accordance with this section and without conforming to the provisions of 20-6-603. If a decision to sell or dispose of property is made, the trustees shall adopt a resolution to sell or otherwise dispose of the district real or personal property because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district.

(2) The resolution may not become effective for 14 days after the notice required in subsection (3) is made.

(3) The trustees shall cause notices of the resolution to be published in a newspaper of general circulation in the district. If there is no newspaper of general circulation, the trustees shall cause notices of the resolution to be posted in the manner required for school elections in 20-20-204.

(4) A taxpayer may appeal the resolution of the trustees, at any time prior to the effective date of the resolution, to the district court by filing a verified petition with the clerk of the court and serving a copy of the petition upon the district. The petition must set out in detail the objections of the petitioner to the adoption of the resolution or to the disposal of the property. The service and filing of the petition stay the resolution until final determination of the matter by the court. The court shall immediately fix the time for a hearing at the earliest convenient time. At the hearing, the court shall hear the matter de novo and may take testimony as it considers necessary. Its proceedings are summary and informal, and its decision is final.

(5) The trustees of a district that has adopted a resolution to sell or otherwise dispose of district real or personal property and, if appealed, has been upheld by the court shall sell or dispose of the real or personal property in any reasonable manner that they determine to be in the best interests of the district.

(6) The money realized from the sale or disposal of real or personal property of the district must be credited to the debt service fund, building fund, general fund, or other appropriate fund, at the discretion of the trustees.

However, the owner or claimant shall first notify the trustees in writing of his intent to repossess the land, and the trustees shall thereafter have 1 year to remove any buildings or improvements placed there by the district. The trustees' failure to remove the buildings or improvements within that time shall constitute a forfeiture of such buildings or improvements. 20-6-701. K-12 school districts allowed — definition — procedure for creation. (1) An elementary district with the same district boundaries as a high school district may attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, "K-12 school district" means a high school district with an elementary district that has been attached to the high school district under the procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) An attachment proposition may be introduced in the districts by either of the following methods:

(i) the trustees may pass a resolution requesting the county superintendent to order an election to consider an attachment proposition involving their districts; or

(ii) not less than 20% of the electors of the elementary district and the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider an attachment proposition involving their districts.

(b) (i) When the county superintendent receives a resolution or a valid petition from each of the districts included in the attachment proposition, the county superintendent shall, within 10 days after receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of the districts included in the attachment proposition to call an attachment election in conjunction with a regular school election.

(c) The districts shall call and conduct an election in the manner prescribed in this title for school elections.

(d) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the districts included in an attachment proposition, the county superintendent shall determine if the attachment proposition has been approved in the districts. If the districts have approved the attachment proposition, the county superintendent shall, within 10 days after receipt of the certificate of election, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(c) the guaranteed tax base aid for the permissive levy amount for a K-12 school district must be calculated separately, using the mill value per elementary ANB and the mill value per high school ANB as defined in 20-9-366. The permissive amount to be levied for the K-12 school district must be prorated based on the ratio of the foundation program amounts for elementary school programs to the foundation program amounts for high school programs.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

(5) For the purposes of budgeting for a K-12 school district, the trustees shall adopt a single fund for any of the budgeted or nonbudgeted funds described in 20-9-201 for the costs of operating all grades and programs of the district.

(6) Tuition for attendance in the K-12 school district must be determined separately for high school pupils and for elementary pupils under the provisions of chapter 5, part 3, except that the actual expenditures used for calculations in 20-5-305 and 20-5-312 must be based on an amount prorated between the elementary and high school programs in the appropriate funds of each district in the year prior to the attachment of the districts.

20-7-401. Definitions. In this title, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Autism" means a condition that is manifested by severe communication and other developmental and educational problems.

(2) "Child with disabilities" means a child with cognitive delay; hearing impairment, including deafness; speech-language impairment; visual impairment, including blindness; emotional disturbance; orthopedic impairment; autism; traumatic brain injury; other health impairments; or specific learning

disabilities, who because of those impairments needs special education and related services. A child who is 5 years of age or younger may be identified as a child with disabilities without the specific disabilities being specified.

(3) "Cognitive delay" means significantly subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period that adversely affects a child's educational performance.

(4) "Deafness" means a hearing impairment that is so severe that the child's hearing is nonfunctional for the purpose of educational performance.

(5) "Emotional disturbance" means a condition exhibiting one or more of the following characteristics to a marked degree and over a long period of time that adversely affects educational performance: an inability to learn that cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes schizophrenia. The term does not include social maladjustment, unless it is determined that the child is emotionally disturbed.

(6) "Free appropriate public education" means the provision of regular or special education and related aids and services that are designed to meet individual educational needs of children with disabilities as adequately as the needs of children without disabilities are met.

(7) "Hearing impairment" means an impairment, whether permanent or fluctuating, that adversely affects a child's educational performance but that is not included within the definition of deafness.

(8) "Orthopedic impairment" means a severe orthopedic disability that adversely affects a child's educational performance. The term includes but is not limited to impairment caused by congenital anomaly (e.g., clubfoot or absence of some member), impairments caused by disease (e.g., poliomyelitis or bone tuberculosis), and impairments from other causes (e.g., fractures or burns that cause contractures, amputation, cerebral palsy).

(9) "Other health impairment" means limited strength, vitality, or alertness due to chronic or acute health problems, such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle-cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes, that adversely affects a child's educational performance.

(10) "Related services" means transportation and any developmental, corrective, and other supportive services that are required to assist a child with disabilities to benefit from special education and includes speech-language pathology, audiology, occupational therapy, and physical therapy.

(11) "Special education" means specially designed instruction, given at no cost to the parents or guardians, to meet the unique needs of a child with disabilities, including but not limited to instruction conducted in a classroom, home, hospital, institution, or other setting and instruction in physical education.

(12) "Specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language,

spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations. The term includes but is not limited to such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems that are primarily the result of visual, hearing, or motor handicaps; cognitive delay; or environmental, cultural, or economic disadvantages.

(13) "Speech-language impairment" means a communication disorder, such as stuttering, impaired articulation, or a language or voice impairment, that adversely affects a child's interpersonal relationships or educational performance.

(14) "Surrogate parent" means an individual appointed to safeguard a child's rights and protect the child's interests in educational evaluation, placement, and hearing or appeal procedures concerning the child.

(15) "Visual impairment" means an impairment that, after correction, adversely affects a child's educational performance. The term includes both partial blindness and blindness.

(2) If a budget amendment for the reasons provided in 20-9-161(1) through (4) does not cause the district general fund budget to exceed the limitations in 20-9-315, the trustees may approve the budget amendment by a resolution as provided in 20-9-163. 20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Notwithstanding the provisions of subsection (3), whenever the trustees of a district decide that a budget amendment is necessary, they may adopt a resolution proclaiming the budget amendment by a majority vote of the trustees. The budget amendment resolution must also state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, and the time and place the board will meet for the purpose of considering and adopting a budget amendment for funds for the current school fiscal year.

(2) If the trustees of a school district determine that the proposed budget amendment will cause the district general fund to exceed the limitations of 20-9-315 or is for the reasons provided in 20-9-161(5) and (6), the trustees shall petition the superintendent of public instruction for permission to adopt a resolution for a budget amendment. The petition must set forth in writing the reasons for the request, the district funds affected by the budget amendment, the estimated amount of money required for the budget amendment for each affected fund, the anticipated sources of financing for the budget amendment expenditures, and any other information required by the superintendent of public instruction. The petition must be signed by a majority of the trustees.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures. (1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a preliminary budget amendment, on the regular budget form, setting forth fully the facts constituting the need for the budget amendment. In adopting the preliminary budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) Determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve.

(b) Divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) Determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) Multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the preliminary budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a preliminary budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the chairman of the trustees and the clerk of the district and copies must be sent to the county superintendent, the county treasurer, and the superintendent of public instruction.

The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account balances to the general fund if the fund does not have a cash or fund balance deficit.

(3) The amount of the general fund budget for each school fiscal year may not exceed the financing limitations established by this title but may not be less than the amount established by law as the foundation program. (1) The trustees of any district operating an elementary school of less than 10 ANB or a high school of less than 25 ANB for 2 consecutive years shall apply to have the school classified as an isolated school. The application shall be submitted by the trustees to the county superintendent by May 1 of the second consecutive year that enrollment falls below the amount specified in this subsection. Such application shall include:

(a) the name of each pupil who will attend the school during the ensuing school fiscal year with the distance the pupil resides from the nearest county road or highway;

(b) a description of conditions affecting transportation such as poor roads, mountains, rivers, or other obstacles to travel, the distance the school is from the nearest open school having room and facilities for the pupils of such school, or any other condition that would result in an unusual hardship to the pupils of the school if they were transported to another school; and

(c) any other information prescribed by the superintendent of public instruction.

(2) The county superintendent shall submit the applications to the board of county commissioners (budget board) for their consideration on or before May 15. The budget board shall approve or disapprove the application on the basis of the criteria established by the superintendent of public instruction. The budget board also may approve an application because of the existence of other conditions which would result in an unusual hardship to the pupils of such school if they were transported to another school.

(3) When an application is approved, the county superintendent shall submit such application to the superintendent of public instruction before June 1. The superintendent of public instruction shall approve or disapprove such application for isolated classification by the fourth Monday of June on the basis of the information supplied by the application or objective information the superintendent of public instruction may collect on his own initiative. No elementary or high school shall be considered an isolated school until the approval of the superintendent of public instruction has been received.

20-9-303. Definition of foundation program — nonisolated school foundation program financing — special education funds. (1) As used in this title, the term "foundation program" means the minimum expenditures that are sufficient to provide for the educational program of a school. The foundation program relates only to those expenditures authorized by a district's general fund budget and may not include expenditures from any other fund. It is financed by:

(a) county equalization money, as provided in 20-9-331 and 20-9-333;

(b) state equalization aid, as provided in 20-9-343;

(c) appropriations for special education; and

(d) a district levy as provided in subsection (3) for support of a school not approved as an isolated school under the provisions of 20-9-302.

(2) The foundation program includes:

(a) amounts in support of general education programs as provided in the schedules in 20-9-316 through 20-9-320; and

(b) payments in support of special education programs under 20-9-321.

(3) An elementary school having an ANB of nine or fewer pupils for 2 consecutive years which is not approved as an isolated school under the provisions of 20-9-302 may budget and spend the schedule amount, but the county and state shall participate in financing one-half of the foundation program, and the district shall finance the remaining one-half by a tax levied on the property of the district. When a school of nine or fewer pupils is approved as isolated under the provisions of 20-9-302, the county and state shall participate in the financing of the total amount of the foundation program.

(4) Funds provided to support the special education accounting budget may be expended only for special education purposes as approved by the superintendent of public instruction in accordance with the special education budgeting provisions of this title. Expenditures for special education must be accounted for separately from the balance of the school district general fund. Transfers between items within the special education budget for accounting purposes may be made at the discretion of the board of trustees in accordance with the financial administration part of this title. The unexpended balance of the special education accounting budget carries over to the next year to reduce the amount of funding required to finance the district's ensuing year's foundation program amount for special education.

(2) A school district shall receive annually from moneys available for state equalization aid $150 for each elementary pupil and $250 for each high school pupil whose parents are employees of an institution located in the school district where the pupil attends school or in a school district which has a tuition agreement with the district where the pupil attends school.

(3) A district which is eligible for state impact aid shall apply for such aid to the superintendent of public instruction in the manner prescribed by the rules prescribed by the superintendent of public instruction.

(4) The distribution of state impact aid shall be deposited in the general fund of the district and shall not be considered as a part of the state equalization aid but shall be used to reduce the property tax in support of the general fund of the district.

20-9-305. Proration and calculation of foundation program for a joint district. (1) In joint districts, the foundation program shall be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the foundation program for which each county is obligated. The proration of the joint district foundation program shall be calculated as follows:

(a) Divide the joint district foundation program by the ANB of the joint district to determine the per-ANB amount of the foundation program.

(b) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties shall equal the total ANB for the joint district.

(c) Multiply the per-ANB amount of the foundation program determined in subsection (1)(a) by the ANB for each county's portion as determined in subsection (1)(b) to determine the portion of the foundation program for each county.

(2) The portion of a joint district foundation program for each county, as determined in subsection (1)(c) of this section, shall be considered as a separate foundation program in such county for the purposes of calculating the various revenues for the foundation program. After the calculation of the foundation program revenues, the remainder of the general fund revenues shall be calculated in accordance with the provisions for general fund financing.

20-9-311. Calculation of average number belonging (ANB). (1) Average number belonging must be computed by determining the total of the aggregate days of attendance by regularly enrolled, full-time pupils during the second semester of the preceding school fiscal year and the first semester of the current school fiscal year plus the aggregate days of absence by regularly enrolled, full-time pupils during the second semester of the preceding school fiscal year and the first semester of the current school fiscal year and by dividing the total by 180. However, when a school district has approval to operate less than 180 school days under 20-9-804, the total must be calculated in accordance with the provisions of 20-9-805. For the purpose of calculating ANB under this section, the days of attendance for a regularly enrolled pupil may not exceed 180 pupil-instruction days and 7 pupil-instruction-related days. Attendance for a part of a morning session or a part of an afternoon session by a pupil must be counted as attendance for one-half day. In calculating the ANB for pupils enrolled in a program established under 20-7-117(1), attendance at or absence from a regular session of the program for at least 2 hours of either a morning or an afternoon session will be counted as one-half day attended or absent as the case may be. If a variance has been granted as provided in 20-1-302, ANB will be computed in a manner prescribed by the superintendent of public instruction, but in no case may the ANB exceed one-half for each kindergarten pupil. When any pupil has been absent, with or without excuse, for more than 10 consecutive school days, including pupil-instruction-related days, his absence after the 10th day of absence may not be included in the aggregate days of absence and his enrollment in the school may not be considered in the calculation of the average number belonging until he resumes attendance at school.

(2) If a student spends less than half his time in the regular program and the balance of his time in school in the special education program, he is considered a full-time special pupil but is not considered regularly enrolled for ANB purposes. If a student spends half or more of his time in school in the regular program and the balance of his time in the special education program, he is considered regularly enrolled for ANB purposes.

(3) The average number belonging of the regularly enrolled, full-time pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled, full-time pupils attending the schools of the district, except that when:

(a) (i) a school of the district is located more than 3 miles beyond the incorporated limits of a city or town located in the district and 3 miles from any other school of the district, all of the regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes; or

(ii) a school of the district is located more than 3 miles from any other school of the district and no incorporated territory is involved in the district, all of the regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes;

(b) a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled, full-time pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) a school has not been accredited by the board of public education, the regularly enrolled, full-time pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the foundation program for the district.

(4) When 11th or 12th grade students are regularly enrolled on a part-time basis, high schools may calculate the ANB to include an "equivalent ANB" for those students. The method for calculating an equivalent ANB must be determined in a manner prescribed by the superintendent of public instruction.

20-9-313. Circumstances under which the regular average number belonging may be increased. The average number belonging of a school, calculated in accordance with the ANB formula prescribed in 20-9-311, may be increased when:

(1) the opening of a new elementary school or the reopening of an elementary school has been approved in accordance with 20-6-502. The average number belonging for the school must be established by the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction.

(2) the opening or reopening of a high school or a branch of the county high school has been approved in accordance with 20-6-503, 20-6-504, or 20-6-505. The average number belonging for the high school must be established by the county superintendent's estimate, after an investigation of the probable number of pupils that will attend the high school.

(3) a district anticipates an increase in the average number belonging due to the closing of any private or public school in the district or a neighboring district. The estimated increase in average number belonging must be established by the trustees and the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction no later than the fourth Monday in June.

(4) a district anticipates an unusual enrollment increase in the ensuing school fiscal year. The increase in average number belonging must be based on estimates of increased enrollment approved by the superintendent of public instruction and must be computed in the manner prescribed by 20-9-314.

(5) for the initial year of operation of a program established under 20-7-117(1), the ANB to be used for budget purposes is the same as one-half the number of 5-year-old children residing in the district as of September 10 of the preceding school year, either as shown on the official school census or as determined by some other procedure approved by the superintendent of public instruction;

(6) a full-time special pupil, as defined in 20-9-311, in a given school fiscal year may no longer be considered a full-time special pupil in the ensuing school fiscal year (the superintendent of public instruction may grant one ANB for the pupil for the ensuing school fiscal year); or

(7) a high school district provides early graduation for any student who completes graduation requirements in less than eight semesters or the equivalent amount of secondary school enrollment or when a high school district provides early graduation for a class of students who have completed the requirements for graduation after 175 pupil-instruction days in the 12th grade. The increase must be established by the trustees as though the student had attended to the end of the school fiscal year and must be approved, disapproved, or adjusted by the superintendent of public instruction.

20-9-314. Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase. A district that anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in 20-9-313(4), may increase its foundation program for the ensuing school fiscal year in accordance with the following provisions:

(1) Prior to May 10, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than May 10, the district shall submit its application for an unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the preceding school fiscal year;

(b) the average number belonging used to calculate the foundation program schedule amount for the current school fiscal year;

(c) the average number belonging that will be used to calculate the foundation program schedule amount for the ensuing school fiscal year;

(d) the estimated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and

(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the estimated average number belonging for the ensuing ANB calculation period. After approving an estimate, with or without adjustment, the superintendent of public instruction shall:

(a) determine the percentage increase that the estimated enrollment increase is over the current enrollment; and

(b) approve an increase of the average number belonging used to establish the ensuing year's foundation program in accordance with subsection (5) if the increase in subsection (3)(a) is at least 6%.

(4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.

(5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the increase of the average number belonging used to establish the foundation program for the ensuing ANB calculation period is the difference between the enrollment for the ensuing school fiscal year and 106% of the current enrollment. The amount determined is the maximum allowable increase added to the average number belonging for the purpose of establishing the ensuing year's foundation program.

(6) Any equalization or entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year. If the actual enrollment is less than the average number belonging used for foundation program and entitlement calculations, the superintendent of public instruction shall revise the foundation program and entitlement calculations using the actual average number belonging. All payments received by the district in excess of the revised entitlements are overpayments subject to the refund provisions of 20-9-344(3).

20-9-321. Foundation program and contingency funds for special education. (1) For the purpose of establishing the foundation program amount for a current year special education program for a school district, the superintendent of public instruction shall determine the total estimated cost of the special education program for the school district on the basis of a special education program budget submitted by the district. The budget must be prepared on forms provided by the superintendent of public instruction and must set out for each program:

(a) the estimated allowable costs associated with operating the program where allowable costs are as defined in 20-7-431;

(b) the number of pupils expected to be enrolled in the program; and

(c) any other data required by the superintendent of public instruction for budget justification purposes and to administer the provisions of 20-9-315 through 20-9-321.

(2) The total amount of allowable costs approved by the superintendent of public instruction is the special education foundation program amount for current year special education program purposes. The total amount of allowable costs that are approved for the special education budget may not, under any condition, be less than the foundation program amount for one regular ANB for each full-time special pupil in the school district.

(3) Any amount of the special education allowable costs for a district approved under the provisions of subsection (2) that is an increase in the approved allowable costs from the previous school fiscal year and is a result of expanded programs or recalculations of the special education allowable costs base may be deposited and managed in the separate account of the miscellaneous programs fund of the district that is prescribed in subsection (4).

(4) If a special education program is implemented or expanded during a given school term too late to be included in the determination of the district foundation program for the school year as prescribed in this part, allowable costs approved under the budgeting provisions of subsections (1) and (2) for the operation of the program during the given year must be funded from any legislative appropriation for contingency financing for special education. Contingency funds granted under this subsection must be deposited in a separate account of the miscellaneous programs fund of the district as provided in 20-9-507. However, if contingency funds are not available, then subject to the approval of the program by the superintendent under the budget amendment provisions of 20-9-161(6), allowable costs for the given year may be funded in the miscellaneous programs fund by other revenue sources and added to the foundation program amount for special education for the subsequent school year under the provisions of 20-9-147. The allowable costs must be recorded as previous year special education expenses in the school district budget for the subsequent school year.

(5) (a) The special education contingency funds in subsection (4):

(i) are biennially appropriated;

(ii) are for emergencies that may arise in the special education programs of school districts or special education cooperatives; and

(iii) may be used to fund positions that have gone unfilled for a full school fiscal year and for which state special education funds were not awarded.

(b) The board of trustees of a district or the management board of a special education cooperative may apply for contingency funding by submitting to the superintendent of public instruction, in the form prescribed by the superintendent of public instruction, written documentation that describes the need for the funds.

(6) The sum of the previous year special education expenses as defined in subsections (3) and (4) and the foundation program amount for current year special education as defined in subsections (1) and (2) is the special education budget for accounting purposes.

(7) The foundation program amount for special education must be added to the foundation program amount of the regular program ANB defined in 20-9-311 and 20-9-313 to obtain the total foundation program amount for the district.

The revenue collected from this levy must be apportioned to the support of the foundation programs of the elementary school districts in the county and to the state special revenue fund, state equalization aid account, in the following manner:

(a) In order to determine the amount of revenue raised by this levy which is retained by the county, the sum of the estimated revenue identified in subsection (2) must be subtracted from the total of the foundation programs of all elementary districts of the county.

(b) If the basic levy prescribed by this section produces more revenue than is required to finance the difference determined in subsection (1)(a), the county treasurer shall remit the surplus funds to the state treasurer for deposit to the state special revenue fund, state equalization aid account, immediately upon occurrence of a surplus balance and each subsequent month thereafter, with any final remittance due no later than June 20 of the fiscal year for which the levy has been set.

A payment may not be made under this subsection (c) that allows a district to receive foundation program funding in excess of the foundation program amount of the district.

(2) The revenue realized from the county's portion of the levy prescribed by this section and the revenue from the following sources must be used for

the equalization of the elementary district foundation programs of the county as prescribed in 20-9-334, and a separate accounting must be kept of the revenue by the county treasurer in accordance with 20-9-212(1):

20-9-333. Basic special levy and other revenues for county equalization of high school district foundation program. (1) The county commissioners of each county shall levy an annual basic special tax for high schools of 22 mills on the dollar of the taxable value of all taxable property within the county, except for property subject to a tax or fee under 23-2-517, 23-2-803, 61-3-504(2), 61-3-521, 61-3-537, and 67-3-204, for the purposes of local and state foundation program support. The revenue collected from this levy must be apportioned to the support of the foundation programs of high school districts in the county and to the state special revenue fund, state equalization aid account, in the following manner:

(a) In order to determine the amount of revenue raised by this levy which is retained by the county, the sum of the estimated revenue identified in subsection (2) must be subtracted from the sum of the county's high school tuition obligation and the total of the foundation programs of all high school districts of the county.

(b) If the basic levy prescribed by this section produces more revenue than is required to finance the difference determined in subsection (1)(a), the county treasurer shall remit the surplus funds to the state treasurer for deposit to the state special revenue fund, state equalization aid account, immediately upon occurrence of a surplus balance and each subsequent month thereafter, with any final remittance due no later than June 20 of the fiscal year for which the levy has been set.

(c) If revenue from the basic levy prescribed by this section when combined with the other revenue from subsection (2) is insufficient to fully fund the percentage determined in 20-9-347(1)(b) and the county is eligible for an apportionment of state equalization aid under the provisions of 20-9-347(1)(c), the county superintendent shall notify the superintendent of public instruction of the deficiency. The superintendent of public instruction shall increase the state equalization aid payments to the districts in the affected county to offset the deficiency. A payment may not be made under this subsection (c) that allows a district to receive foundation program funding in excess of the foundation program amount of the district.

(2) The revenue realized from the county's portion of the levy prescribed in this section and the revenue from the following sources must be used for the equalization of the high school district foundation programs of the county as prescribed in 20-9-334, and a separate accounting must be kept of the revenue by the county treasurer in accordance with 20-9-212(1):

(a) any money remaining at the end of the immediately preceding school fiscal year in the county treasurer's accounts for the various sources of revenue established in this section;

(b) any federal or state money distributed to the county as payment in lieu of property taxation, including federal forest reserve funds allocated under the provisions of 17-3-213;

20-9-406. Limitations on amount of bond issue. (1) (a) The maximum amount for which an elementary district or a high school district may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the taxable value of the property subject to taxation as ascertained by the last completed assessment for state, county, and school taxes previous to the incurring of the indebtedness, including:

(i) the taxable value of coal gross proceeds as determined for county bonding purposes in 15-23-703(2);

(ii) the taxable value of oil and gas net proceeds as determined for county bonding purposes in 15-23-607(3); and

(iii) the amount of the value of any other oil and gas production occurring after December 31, 1988, multiplied by 60%.

(b) The maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is up to 90% of the taxable value of the property subject to taxation as ascertained by the last-completed assessment for state, county, and school taxes previous to the incurring of the indebtedness. The total indebtedness of the high school district with an attached elementary district as represented by the issuance of bonds must be limited to the sum of 45% of the taxable value of the property for elementary school program purposes and 45% of the taxable value of the property for high school program purposes.

(2) The maximum amounts determined in subsection (1), however, may not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to bonds issued for the repayment of tax protests lost by the district. All bonds issued in excess of the amount are void, except as provided in this section.

(3) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(4) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

20-9-407. Industrial facility agreement for bond issue in excess of maximum. (1) In a school district within which a new major industrial facility which seeks to qualify for taxation as class five property under 15-6-135 is being constructed or is about to be constructed, the school district may require, as a precondition of the new major industrial facility qualifying as class five property, that the owners of the proposed industrial facility enter into an agreement with the school district concerning the issuing of bonds in excess of the 45% limitation prescribed in 20-9-406. Under such an agreement, the school district may, with the approval of the voters, issue bonds which exceed the limitation prescribed in this section by a maximum of 45% of the estimated taxable value of the property of the new major industrial facility subject to taxation when completed. The estimated taxable value of the property of the new major industrial facility subject to taxation shall be computed by the department of revenue when requested to do so by a resolution of the board of trustees of the school district. A copy of the department's statement of estimated taxable value shall be printed on each ballot used to vote on a bond issue proposed under this section.

(2) Pursuant to the agreement between the new major industrial facility and the school district and as a precondition to qualifying as class five property, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, so much of the principal and interest on the bonds provided for under this section as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in this section, the new major industrial facility shall be entitled, after all the current indebtedness of the school district has been paid, to a tax credit over a period of no more than 20 years. The credit shall as a total amount be equal to the amount which the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(3) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this title, unless the context clearly indicates otherwise:

(1) "amortization bonds" means the form of bonds on which a part of the principal must be paid each time interest becomes payable. The part payment of principal increases at each installment in the same amount that the interest decreases. The combined interest and principal due on each due date remains the same until the bonds are paid. The final payment may vary from prior payments in the amount resulting from disregarding fractional cents in prior payments.

(2) "serial bonds" means a bond issue payable in annual installments commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing

in each installment not exceeding three times the principal amount of the bonds maturing in the immediately preceding installment.

History: En. 75-7105 by Sec. 306, Ch. 5, L. 1971; R.C.M. 1947, 75-7105; amd. Sec. 7, Ch. 631, L. 1983; amd. Sec. 7, Ch. 256, L. 1989.

20-9-409. Form of bond to be issued. All bonds issued by a school district shall be amortization bonds unless serial bonds, in the judgment of the trustees, will be more advantageous to the school district and can be sold at a comparatively reasonable rate of interest.

History: En. 75-7106 by Sec. 307, Ch. 5, L. 1971; R.C.M. 1947, 75-7106.

20-9-410. Limitation of term and interest — timing for redemption. (1) School district bonds may not be issued for a term longer than 20 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. All bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and it must be so stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

History: En. 75-7107 by Sec. 308, Ch. 5, L. 1971; amd. Sec. 7, Ch. 234, L. 1971; amd. Sec. 3, Ch. 284, L. 1973; R.C.M. 1947, 75-7107; amd. Sec. 11, Ch. 500, L. 1981; amd. Sec. 1, Ch. 11, L. 1983; amd. Sec. 71, Ch. 370, L. 1987; amd. Sec. 8, Ch. 256, L. 1989.

20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without an election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue bonds for such purpose, the trustees, at a regular meeting or a duly called special meeting, shall adopt a resolution setting forth:

(a) the facts regarding the outstanding bonds that are to be redeemed;

(b) the reasons for issuing new bonds; and

(c) the term and details of the new bond issue.

(2) After the adoption of such resolution, the trustees shall:

(a) sell the bonds at a private negotiated sale; or

(b) at their option, give notice of the sale of such new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell such new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Bonds shall not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least 1/2 of 1% per annum less than the rate of interest in the bonds to be refunded or redeemed.

(4) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which such bonds mature or are subject to redemption, provided the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale thereof, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or out of the state. Funds so deposited shall be invested in securities which are general obligations of the United States or the principal and interest of which are guaranteed by the United States and which mature or are callable at the option of the holder on such dates and bear interest at such rates and payable on such dates as shall be required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each refunded bond to its maturity or redemption date, if called for redemption, and to pay the principal thereof at maturity or upon such redemption date, and to pay any redemption premium. The escrow account shall be irrevocably appropriated to the payment of the principal of and interest and redemption premium, if any, on the refunded bonds. Funds to the credit of the debt service fund for the payment of the refunded bonds and not required for the payment of principal of or interest thereon due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

The bonds shall be sold at not less than par with accrued interest to date of delivery, and each bidder shall specify the form of bonds to be issued, whether amortization or serial, and the rate of interest at which he will purchase the bonds. A bid for amortization bonds shall have the preference over a bid for serial bonds, all other things being equal; and in considering bids on these classes of bonds, the trustees shall take into consideration not only the rate of interest demanded on each kind but also every other known element affecting the total cost of the bonds to the district when paid in full. The trustees shall accept the bid which they shall judge most advantageous to the school district. Consultants' fees and attorney fees may be paid to any person or corporation for assisting in the proceedings or in the preparation of the bonds or in negotiating the sale. Provided, however, that bond issues prepared or negotiated for sale under this section shall not be combined for any other purpose but shall be entered separately on the books of the county treasurer and shall be otherwise treated as separate bond issues.

The bonds and coupons shall be issued in the name of the school district and shall be executed by the chairman of the trustees and the school district clerk in accordance with 2-16-114. (a) determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435; and

The district's contribution for each employee who is covered by unemployment insurance must be paid in accordance with Title 39, chapter 51, part 11.

(2) The trustees of a district required to make a contribution to a system referred to in subsection (1) shall include in the retirement fund of the preliminary budget the estimated amount of the employer's contribution. After the final retirement fund budget has been adopted, the trustees shall pay the employer contributions to the systems in accordance with the financial administration provisions of this title.

(v) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid.

(b) notwithstanding the provisions of subsection (8), subtracting the money available for reduction of the levy requirement, as determined in subsection (3)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(5) The county commissioners shall fix and set the county levy in accordance with 20-9-142.

(6) The net retirement fund levy requirement for a joint elementary district or a joint high school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county in the same manner as provided in 20-9-151 and the county commissioners shall fix and levy the net retirement fund levy for each county in the same manner as provided in 20-9-152.

(8) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (4)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

20-9-502. Purpose and authorization of a building reserve fund by an election. (1) The trustees of any district, with the approval of the qualified electors of the district, may establish a building reserve for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(a) the purpose or purposes for which the new or addition to the building reserve will be used;

(b) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(c) the total amount of money that will be raised during the duration of time specified in subsection (1)(b); and

(d) any other requirements under 20-20-201 for the calling of an election.

(2) The total amount of building reserve when added to the outstanding indebtedness of the district may not be more than the limitations provided in 20-9-406. A building reserve tax authorization may not be for more than 20 years.

(3) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in the following form:

OFFICIAL BALLOT
SCHOOL DISTRICT BUILDING RESERVE ELECTION

INSTRUCTIONS TO VOTERS: Make an X or similar mark in the vacant square before the words "BUILDING RESERVE—YES" if you wish to vote for the establishment of a building reserve (addition to the building reserve); if you are opposed to the establishment of a building reserve (addition to the building reserve) make an X or similar mark in the square before the words "BUILDING RESERVE—NO".

Shall the trustees be authorized to impose an additional levy each year for .... years to establish a building reserve (add to the building reserve) of this school district to raise a total amount of .... dollars ($....), for the purpose(s) .... (here state the purpose or purposes for which the building reserve will be used)?

☐ BUILDING RESERVE—YES.

☐ BUILDING RESERVE—NO.

(4) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for such purpose or purposes before any money realized by the bond issue is used.

20-9-503. Budgeting, tax levy, and use of the building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include such authorized amount in the building reserve fund of the preliminary budget. The county superintendent shall report such amount as the building reserve fund levy requirement to the county commissioners on the second Monday of August, and a levy on the district shall be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund shall have the authority to expend moneys from such fund for the purpose or purposes for which it was authorized without such specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to commence the authorized projects. Such expenditures shall not invalidate the district's authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest such money in accordance with 20-9-213(4). The interest earned from the investment shall be credited to the building reserve fund or the debt service fund, at the

discretion of the trustees, and expended for any purpose authorized by law for such fund.

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

(a) elementary tuition obligations to other districts;

(b) transportation of the resident pupils;

(c) maintenance of district-owned property; and

(d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

Such nonoperating budget shall contain the nonoperating fund and, when appropriate, a debt service fund. 20-9-804. Determination of eligibility. If the county superintendent or, in a county with no county superintendent, the superintendent of public instruction determines that a reasonable effort has been made to make up all school days lost by reason of one or more unforeseen emergencies but fewer than the minimum number of school days required by law have been conducted, the school district will nevertheless be credited with full annual equalization apportionment according to the rate established in 20-9-805.

Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) The rate per bus mile traveled must be determined in accordance with the following schedule when the number of eligible transportees that board a school bus on an approved route is not less than one-half of its rated capacity:

(a) 85 cents per bus mile for a school bus with a rated capacity of not less than 12 but not more than 45 children; and

(b) when the rated capacity is more than 45 children, an additional 2.13 cents per bus mile for each additional child in the rated capacity in excess of 45 must be added to a base rate of 85 cents per bus mile.

(3) Reimbursement for nonbus mileage provided for in subsection (1) may not exceed 50% of the maximum reimbursement rate determined under subsection (2).

(4) When the number of eligible transportees boarding a school bus on an approved route is less than one-half of its rated capacity, the rate per bus mile traveled must be computed as follows:

(a) determine the number of eligible transportees that board the school bus on the route;

(b) multiply the number determined in subsection (4)(a) by two and round off to the nearest whole number; and

(c) use the adjusted rated capacity determined in subsection (4)(b) as the rated capacity of the bus to determine the rate per bus mile traveled from the rate schedule in subsection (2).

(5) The rated capacity is the number of riding positions of a school bus as determined under the policy adopted by the board of public education.

20-10-142. Schedule of maximum reimbursement for individual transportation. The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates also shall constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section shall not be altered by any authority other than the legislature of the state of Montana. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement per day of attendance shall be determined by multiplying the distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product so obtained, and multiplying the difference by 21.25 cents provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if such schools are operated by different school districts, the total amount of the reimbursement shall be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian shall be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop which school and bus stop are located within 3 miles of one another, the total reimbursement shall be determined under the provisions of this subsection and shall be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section shall be limited to one round trip per day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), no reimbursement may be less than 25 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement per day of attendance shall be determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 3 miles from the product so obtained, and multiplying the difference by 22.5 cents provided that:

(a) if the eligible transportees transported attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian shall be separately reimbursed for transportation to each bus.

(3) Where, due to excessive distances, impassable roads, or other special circumstances of isolation the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, his parent or guardian may request an increase in the reimbursement rate. Such a request for increased rates due to isolation shall be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances which exist to justify the increase. Before any increased rate due to isolation can be paid to the requesting parent or guardian, such rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the county transportation committee and the superintendent of public instruction, the trustees shall pay such increased rate due to isolation. The increased rate shall be 1 ½ times the rate prescribed in subsection (1) above.

(4) When the isolated conditions of the household where an eligible transportee resides require such eligible transportee to live away from the household in order to attend school, he shall be eligible for the room and board reimbursement. Approval to receive the room and board reimbursement shall be obtained in the same manner prescribed in subsection (3) above. The per diem rate for room and board shall be $5.31 for one eligible transportee and $3.19 for each additional eligible transportee of the same household.

(5) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate shall be the cost of such study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

(a) an adequate amount to finance the maintenance and operation of district owned and operated school buses;

(b) the annual contracted amount for the maintenance and operation of school buses by a private party;

(c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;

(d) any amount necessary for the purchase, rental, or insurance of school buses; and

(e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

(a) pupils not residing in the district at the time of the adoption of the preliminary budget and who subsequently became residents of the district during the school fiscal year; or

(b) pupils who have become eligible transportees since the adoption of the preliminary budget because their legal residence has been changed. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than $100, in which case $100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The transportation fund budgeted expenditures appropriated by the trustees must be reported on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted preliminary budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation and individual transportation to the county superintendent. The contracts must substantiate all contracted transportation services incorporated in the preliminary budget, and after the county superintendent has utilized the contracts for that purpose but before the fourth Monday of July, he shall send all transportation contracts received to the superintendent of public instruction. When the county superintendent determines a deviation between the preliminary transportation fund budget amount for contracted transportation services and the contracted amount for the services, he shall immediately call the deviation to the attention of the appropriate trustees and shall allow the trustees to change the preliminary budgeted amount to compensate for the deviation.

20-10-144. Computation of revenues and net tax levy requirements for district transportation fund budget. Before the fourth Monday of July and in accordance with 20-9-123, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the preliminary budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

(a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate per bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by such district); plus

(b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted on the preliminary budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or $100, whichever is larger, the contingency amount on the preliminary budget must be reduced to the limitation amount and used in this determination of the schedule amount.

(2) (a) The schedule amount determined in subsection (1) or the total preliminary transportation fund budget, whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) one-half is the budgeted state transportation reimbursement, except that the state transportation reimbursement for the transportation of special education pupils under the provisions of 20-7-442 must be 100% of the schedule amount attributed to the transportation of special education pupils; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of cash for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and cash reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of Title I of Public Law 81-874 or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

(c) anticipated payments from a parent or guardian for providing school bus transportation services for his child;

(d) anticipated or reappropriated interest to be earned by the investment of transportation fund cash in accordance with the provisions of 20-9-213(4);

(e) anticipated or reappropriated revenue from property taxes and fees imposed under 23-2-517, 23-2-803, 61-3-504(2), 61-3-521, 61-3-537, and 67-3-204;

(f) anticipated revenue from coal gross proceeds under 15-23-703;

(g) anticipated net proceeds taxes for new production, as defined in 15-23-601, and local government severance taxes on any other production occurring after December 31, 1988;

(h) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year that may be used to finance the transportation fund; and

(i) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

(4) The district levy requirement for each district's transportation fund must be computed by:

(a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation budget amount; and

(b) subtracting the amount of money available to reduce the property tax on the district, as determined in subsection (3), from the amount determined in subsection (4)(a).

(5) The transportation fund levy requirements determined in subsection (4) for each district must be reported to the county commissioners on the second Monday of August by the county superintendent as the transportation fund levy requirements for the district, and the levy must be made by the county commissioners in accordance with 20-9-142.

(2) Whenever a bus depreciation reserve fund is established, the trustees may include in the district's budget, in accordance with the school budgeting provisions of this title, an amount each year that does not exceed 20% of the original cost of a bus or a two-way radio. The amount budgeted may not, over time, exceed 150% of the original cost of a bus or two-way radio. The annual revenue requirement for each district's bus depreciation reserve fund, determined within the limitations of this section, must be reported by the county superintendent to the county commissioners on the second Monday of August as the bus depreciation reserve fund levy requirement for that district, and a levy must be made by the county commissioners in accordance with 20-9-142.
